KINGS MOUNTAIN HERALD, KINGS MOUNTAIN, N. C.

### Study Groups In Meeting

RALEIGH, N. C. — Testimony by a representative of the Carolinas Association of Mutual Insurance Agents highlighted the second meeting of the Governor's Auto Insurance Study Commission here, today.

Jack Rose of the Watson Insurance Agency of Gastonia made the presentation on behalf of the bistrate mutual insurance agents' association which represents over 1000 fire and casualty insurance personnel in the Carolinas.

Rose has served as chairman of a special N. C. auto insurance study committee that has been involved in an in-depth study of auto liability for three years, under the auspices of the bistrate mutual insurance agents' association.

He offered six points to the commission that were the result of careful analysis by the association's board of directors, executive committee and members.

Rose made the following suggestions to the commission for improvement of auto insurance in the state:

1. A careful re-evaluation of the Safe Driver Reward Plan by the commissioner of insurance to determine if the public would be better served if points were assessed for "moving violations" convictions only;

2. Revision of the basic auto package to include: liability limits of \$10,000/20,000/5,000. Uninsured Motorists' insurance; and medical payments coverage with a further recommendation that the commission study the possibility of including \$10,000 death and dismemberment and \$75.00 a month disability.

3. Consider offering fire, theft and deductible collision insurance through the N. C. Automobile Assigned Risk plan;

4. Study the possibility of eliminating the present driver classification system in favor of the "260" Plan which would more equitably define the insured and distribute the premium rate.

5. That companies restrict cancellation of automobile liability insurance to non-payment of premium or revocation of driver's license only;

6. That the state legislature establish a formula for rate adjustment that could be applied by the insurance commissioner.

In conclusion, Rose offered the members of the Governor's Study Commission the full services and cooperation of the mutual agents' association.

According to the North Carolina Department of Motor Vehicles, excessive speed is the primary cause of most motor vehicle deaths and injuries on the state's highways.

### Bethware News

Jim Wells of Charleston, S. C., Mrs. Ned Thomas and daughter from Conover, S. C. were visitors of Mrs. Lee Dedmon and Mrs. L. V. Hoyle Saturday night.

Mr. and Mrs. P. H. McSwain spent Monday with Mr. and Mrs. Dennis McSwain and other relatives in Rock Hill, S. C.

Mr. and Mrs. Harold Herndon and Mr. and Mrs. Bill Babb spent the weekend in Burnsville, N. C.

Mrs. David Gibbons and boys, Mrs. Jerry Hall and Kim visited Mr. and Mrs. Earl Lewis of Fallston Sunday afternoon.

Mr. and Mrs. Frank Herndon and Mr. and Mrs. Coyt Herndon spent Wednesday with Mr. and Mrs. George Herndon in Rock Hill, S. C.

Rev. and Mrs. Demuth Blanton

### Carpenter Named First Union's District Manager For '70 Census

Appointment of Harry E. Carpenter, Jr. of Conover, as District Manager of the 1970 U. S. Census of Population and Housing in this area was announced today by Director Joseph R. Norwood of the Census Bureau's Regional Office in Charlotte, N. C.

A native of Catawba County, Mr. Carpenter was educated in the local schools, and received his degree from Duke University.

He has also studied at the University of Maryland. Mr. Carpenter has served as an officer in the Navy. For a number of years he was associated in a scientific capacity with the national space program, primarily with NASA and Douglas Aircraft. Most recently he was president of a furniture manufacturing plant in Taylorsville, and within the past year has entered the investment sales field.

From the District Office located at 20-22 Second Street, N. W., Hickory, Mr. Carpenter will supervise all phases of the census in the following counties: Alexander, Alleghany, Ashe, Avery, Burke, Caldwell, Catawba, Cleveland, Lincoln, Surry, Watauga and Wilkes.

On January 26, following several days of intensive training in the Regional Office, Mr. Carpenter will come on duty and begin setting up the District Office. He will direct a force of about 460 field workers throughout the area.

Taking the Census nationally will require the services of 172,000 field workers, 393 District Managers, and 13,000 office personnel.

### W-2 Forms Must Be Given

Greensboro, N. C. — The deadline for employers to give employees their 1969 W-2 forms, showing earnings, income tax withheld and Social Security information is Monday, February 2, 1970, J. E. Wall, District Director of Internal Revenue for North Carolina, said today.

W-2's have to be filed with income tax returns and those who had more than one job last year should make sure they attach all of them when they file their returns.

North Carolina has the third largest estuarine area in the nation, exceeded only by Alaska and Louisiana.

Coyotes are about the size of a setter dog.

### First Union's Earnings \$2.52

L. E. Hinnant, City Executive in charge of First Union National's Kings Mountain Office, announced today that First Union's income before security gains or losses was \$2.42 per share for the year 1969 as compared with \$2.19 for 1968. The figures give effect to accounting changes prescribed by the Banking Regulatory authorities in 1969. In addition, the impact of the Tax Reform Act, which became law on December 30, 1969, is fully reflected, as are 1969 acquisitions.

Prior to the 1969 accounting changes, banks consistently reported results of operations as "net operating earnings". Had the previous basis remained in effect, with no change in income tax status, the per share "net operating earnings" would have been \$2.57 as compared to \$2.27.

From the summit of Chimney Rock, a 75-mile panoramic view of the beautiful Western North Carolina mountains is available.

Sworn to and subscribed before me, this 20th day of January, 1970. Mildred M. Whetstone, Notary Public. My Commission Expires: 29 June, 1971

Ruby H. Baker Secretary-Treasurer

### GARDEN TIME

By M. E. Gardner Dept. of Horticultural Science N. C. State University

January is usually a slow month in the home gardens due to adverse weather. However, there are some jobs that can and should be accomplished.

Get your seed orders in. You have in mind many flowers and vegetables that have done well for you or that you might have observed in the gardens of friends. Stick pretty closely to those varieties which have proven themselves but do not hesitate to try a few new ones, especially the hybrids.

If you are landscaping a new home, or "sprucing-up" a bit around the established home, check with your nurseryman. He will have suggestions about plant materials suitable for all locations in your landscape plan.

If you have a small greenhouse you can expect improvement in growth from now on as the days are getting longer. Overwatering is a common error. There is no rule-of-thumb. One must use good judgement. Plants need more water on a bright day than on a cloudy one. Regulation of the night temperature is important during cold nights. This is especially true if you have tomato plants.

Now is a good time to plant apples, peaches, plums, cherries,

pears and grapes in the Piedmont and Coastal Plain. When planting, dig a hole large enough to accommodate the root system without crowding. Separate top and subsoil and place the topsoil around the roots. After the roots are well covered, pack with your feet to within about 4 inches of the top of the hole. Finish filling with loose soil. Set plants as deep as they stood in the nursery row. You can easily identify this soil line at the base of plant. Mulch.

Don't overlook the dwarf type fruit plants. They are well suited for areas where space is a problem and there are many fine varieties for selection.

If you have apple and peach trees, prune them and spray with winter (dormant) strength lime sulphur. The same treatment will also be fine for your bunch grapevines.

Clean and oil all working parts of your lawn mower. If you have a power mower, that has been operated for 20 hours, change oil.

Repair and paint lawn and picnic furniture. Clean and sharpen garden tools.

North Carolina has the third largest estuarine area in the nation, exceeded only by Alaska and Louisiana.

Coyotes are about the size of a setter dog.
