Tay 'miker

market. April has been designated "Textile Futures Month" in Kings Mountain.

During April, the textile industry, in cooperation with the vocational education department of the high school, will demonstrate needs for manpower in the textile industry, and the varied manpower

The industry has been plagued for many months with a real manpower need. Part of the manpower requirement has been due to the increasing variety of textile products produced and the other end of the coin has been loss of potential manpower to other employment in other cities, both near and far.

Kings Mountain's textile industry should have an interesting story to tell. It is the major employer in Kings Mountain, producing much in the textile spectrum, from cotton yard to consumer bound socks, knit goods, upholstery fabrics and many others.

What the textile industry will be telling youths, perhaps a year to five years distant in the "futures" market is that there is opportunity in a career in the textile industry in Kings Mountain.

Which there is.

Short Decade

On Tuesday Fibre Industries observed its tenth anniversary as an industrial citizen of Cleveland County. The fact of ten years seems incredible.

Perhaps even more incredible has been the growth of Fibre, not only at Earl, but elsewhere. Fibre has been con-

men, women and children, trailed Virginia (747,610) and Penn-slvania (434,373), Massachusetts was rounth and New York fifth. m-m There were 15 states, but the

ington and the Congress.

m-m

The reasons are multiple. While many so blessed will laugh at the seeming foolishness of the household question asking if the occupant enjoys the benefits of a flush toilet, those who don't won't laugh. It reminds of Comedian Bob Hope's quip about folk yearning for the good old days, Hope said these really mean they want to return to the good old days, all the while taking along the electric refrigerat-or and the family auto. The schold answers are valuable to industry in projecting demand for such des.rable consumer goods ar refrigerators, color tel-evision sets, and, yea, flush toil-ets, and valuable to government in projecting need for modern

m-m Listed in the Commerce De-partment's booklet "Uncle Sam Counts 1970" is a "pay-back" product of the census which many have found helpful. North Carolina, for instance, has re-quired recordation of briths on-by since 1014 Many citizens have names. The drive is de-protecting the head of the tourism defending Mexican customs and pleasing tourists. For, as the de-partment head shrewdly observes, north of the border and find one-self surrounded by Anglo-Saxon ly since 1914. Many citizens have names?

reached age 65, when they were gligible for social security bene-fits, only to find establishment of their birth date a major hurdle to collecting what is right-fully theirs. Here an application form should be obtained from the Personal Census Service Branch, Bureau of the Census, Pittsburg, Kansas. It's among the surest means of accomplishing this hurdle.

m-m

The historical organizations finitum. have used this service too -- in qualifying membership in such organizations as the Daughters of the American Revolution, Co-Ionial Daughters, and United Daughters of the Confederacy.

ing, expensive problem and it is to be hoped that the study commission can bring recommendations of improvement to the 1971 General Assembly.

Count Begins

April Fool's Day may be an inauspicious one to begin the decennial nose count of "every man, woman, and child" in the 50 States. In these parts Wednesday's weather would indicate so.

But started it has.

In his ever-continuing quest for ef-ficiency, Uncle Sam has changed the format from 1960. Census forms have been mailed to all known addresses and placed in all postoffice mail boxes. Hopefully, the census-taker will find, when he calls the form properly executed and can speed along downstreet.

This may not be the case, though the form is comparatively simple. The instruction sheet requires more space than the form itself.

Nevertheless, the count will be made and rather accurately.

The founding fathers set forth the requirement for the decennial census in the fifth paragraph of the United States Constitution. The reasons: to determine apportionment of taxes and representatives in the Congress.

The census is a decennial phenomenon.

Those who saw Kings Mountain le Theatre's production of "The Little Theatre's production of Curious Savage" will be on hand for "Cinderella" this weekend. Those who missed "Savage" should not miss "Cin-derella" this weekend. The first production was what theatre circles term a "smash".

tinually expanding its Earl plant. Meantime, it has built and is operating major installations at Salisbury and Greenville, S. C.

Fibre produces a man-made yarn, in a variety of denier, under the copy-righted trade name Fortrel. Fortrel goes into men's suits and women's dresses and the heavier product becomes tire cord.

Fibre Industries was formed as a jointly owned corporation of Imperial Chemicals, Ltd., of Great Britain, and Celanese Corporation of America.

The contribution Fibre has made to Cleveland County in all areas and to neighboring counties, too, has been major.

Happy birthday to Fibre and a wish for many more of them.

The sudden passing of Mrs. Florine McDaniel Hill shocked her many friends. She was a lady of friendliness and compassion. She was able to accept adversity, as evidenced by her life she was widowed a number of years ago.

Congratulations to Larry Hamrick, recently elected president of the Kings Mountain Rotary Club.

Lieutenant James S. Dye has received the army commendation medal for service in Thailand. It is his second and thereby speaks for itself.

A best bow to Jim Yarbro, winner of the Wood Badge Award for comple-tion of Boy Scout leadership training. He is Scoutmaster of Troop 92.

1960 census cost North Carolina Americanism. a member.

We sympathize with the Mexicans.

Christian Science Monitor

Floods of proposed questions are directed to the Bureau of the Census. Among them reject

ed for inclusion in the '70 count: AN AMAZING SURVIVAL have you been in an auto acci do you belong to a union When the first settlers came to New England they organized their and which one; do your smoke

cigarettes or cigars and when did you start; do you own a dog, own governments because they had to. There was no other rule cat, and/or bird; do you hold nearer than London. As villages more than one job? were established in isolated re-
