Census To Count Transients

Even if you are away from home on Census Day, the Census Bureau intends to find you in your hotel or motel and count you as a resident of your home city, county, and State, District Manager Harry Carpenter said today.

This will require a special project called "T-Night," the "T" standing for "Transient." "T-Night" will be March 31 throughout the United States, and the management of all hotels, motels and other large places for transients will take part.

On "T-Night," which is the night before Census Day, April 1, all transients at hotels, motels, and like places will be given an individual census form to fill out. It includes space to indicate "usual place of residence." After all forms have been collected, they will be sorted at the local district office to determine which persons, having no other usual place of residence, should be counted locally. Those who give a home address elsewhere will be allocated to their appropriate area.

Permanent residents of a hotel or motel will be counted as part of the local population where they are staying. Information about their housing, which is part of the 1970 census, will be furnished by the resident managers.
