Graduation Time

Some 200 plus high school seniors will receive diplomas signifying the completion of a dozen years of formal schooling June 2.

Marriage is around the corner for many, income producing jobs for others and college for some.

College should be and could be for

In the days before post Warld War II affluence the great mass of high school graduates did not consider college for the financing wasn't available In some instances, parents stretched means tight to assure the children a high school diploma.

But the student and his parent must have the will to try.

Colleges and universities are comparatively rich in scholarships and loan funds and grants and the would-be entrant who asks has got the chance to get.

That was the message the Herald received from a veteran lady bowler who called to report that Kings Mountain's team was winner of the national championship.

The Herald adds its congratulations and best wishes to the team of Jenny Oates, Lib Bolin, John Dilling, Al Brackett, and Ronnie Culbertson who were adjudged the No. 1 Mixed Quintet in the National Duckpin Tournament in Hagerstown, Md. White House Salute

Area farmers helped earn national recognition in President Nixon's recent White House Salute to Agriculture:

The President, in a unique tribute to agricultural achievement, said, 'Thanks to American Agriculture for making us the best fed, the best clothed people in America; thanks to American Agriculture for providing the basic industry that is essential for any nation to be strong.'

He cited specifically a 300 percent per man-hour productivity increase for agriculture in the last 20 years, comparing it with the 150 percent increase recorded by other American industry.

This national salute to Agriculture is a salute to North Carolina farmers as well as those in the other 49 states.

The President told the Nation that American farmers have proven their ability to capitalize on new opportunities and can compete successfully whenever they have the chance to compete. Mr. Nixon said he is determined to see that Agriculture has that chance.

President Nixon told the Salute to Agriculture audience: "It is a rule in a free society that whoever produces more should be compensated for more. The income per capita of those who live on America's farms has gone up in the last 20 years. But in terms of sharing in this increased productivity, those who live on America farms, those who produce from America's farms, have not had the rewards from increasing productivity that their colleagues who work in American industry have had for their increase in productivity.

"It is that problem that we have been addressing ourselves to. It is that problem in which, of course, we need cooperation among all branches of Government, the Administration, the Congress, and the farm community, to see that America's farmers receive their fair share of a dramatically increasing productivity."

That there may have been some short-term political gain in playing to the sentiment of the Italian people who wanted him released;

Still, did not the Italian authorities set back the cause of combating air hijackings by releasing Raffaele Minichello, the California to Rome hijacker, after a scant 18 months in prison?

The Italians, who after all are signatories of the international antihijacking pact, have treated the episode like a romantic opera plot.

JUST A FEW REMINDERS

My interest is for the furtherance of progress, advancements and improvements for our entire city and havig ben a part of the municipal government as a former mayor I believe that I can serve the city as a councilman in an effective manner. I am interested in several special projects now underway and look forward to their accomplishments.

Your support and vote will be greatly appreciated in the May 25th Run-Off Election.
