Weekly Health Tip

By WILSON GRIFFIN
"It is clear that drugs can promote and preserve good health when they are taken on the advice of a physician, or according to directions on the label," says Today's Health magazine. "However, drug abuse — taking drugs without professional advice or direction — can injure vital parts of the body: the liver, the kidneys, the heart, the brain. Abuse of certain drugs can also lead to drug dependence, either psychological or physical." It just makes sense that drugs should not be imposed upon the body's intricate chemical balance unless they are prescribed by professional medical personnel.

After you see your doctor bring your prescription to
Griffin's Drug Store
