Weekly Health Tip
By WILSON GRIFFIN
When an automobile stops suddenly, as in an accident, all loose articles in the car become flying missiles that can cause serious injury or death to the passengers. This is less true of items on the floor than on the seat. Toys, books, cameras, etc. should never be left on the back window ledge. In a sudden stop they will fly forward at 20 or more miles per hour, the same as the speed at which the car was traveling. Luggage or shopping packages should be carried in the car trunk where they cannot injure passengers in case of sudden changes of speed or direction.
After you see your doctor bring your prescription to
Griffin's Drug Store
