

Storm Precaution Time Again; Get Ready

This is the season to prepare for all kinds of storms and high winds — hurricanes, equinoctial storms, tornados and other dis-

turbances of lesser ferocity. First of all, check your supplies. Be sure you have boards, nails and tools with which to batten down if a severe storm heads your way. Check to see if you have flashlights with fresh batteries, a transistor radio that works and some non-perishable foods.

Keep an eye and an ear open for National Weather Service

advisors, and especially the bulletins from the National Hurricane Center in Miami and other emergency warnings. With improved methods, the art of storm forecasting is getting more accurate both as to the time and geography. Today, instead of wide-scale, generalized warnings, hurricane forecasts in particular are targeted very closely to the endangered areas so that only those who need to prepare actually do so.

Optimist Sponsor Ice Capades Show

When the 1971 Ice Capades skaters take to the ice at 8 p. m. on Wednesday night, October 20 in the Charlotte Coliseum, the benefactors will be the boys who live at Boys Home of North Carolina. This special opening program has been designated "Boys Home night at the Ice Capades."

The fifty Optimist clubs in the Charlotte area are sponsoring this performance to kickoff the 1971-1972 maintenance effort, which has a goal of \$30,000 for the year.

Boys Home now has its second facility at Huntersville in northern Mecklenburg county. The first campus is located at Lake Waccamaw in Columbus county. These two facilities presently care for 127 boys, and plans are under way on the Huntersville

tie-downs and the equipment to re-do the job properly. They are found inadequate.

A good test of the prescribed tie-down precautions occurred—without "benefit" of hurricane—just a couple of months ago in Atlanta, Ga. A two-ton automobile traveling some 30 miles an hour smashed into a mobile home that had been tied down with the recommended anchor-and-cable system. There was virtually no interior damage—and the home didn't budge an inch off its blocks.

REPAIRING FAUCET
Got a dripping faucet or one that vibrates, "sings" or "flutters" when opened? The trouble is probably the washer at the lower end of the faucet spindle. If it leaks around the spindle when opened, a new packing washer is needed. These are do-it-yourself plumbing repairs that can be made with a wrench, screw driver and replacement washers.

David Bolin Player Of Week

Quarterback David Bolin has been named Kings Mountain High's player of the week following his outstanding performance in the Mountaineers' 26-6 win over R-S Central last Friday.

Bolin, a 165-pound senior, scored one touchdown and called his best game of the season as the Mountaineers squarred their season's record at 3-3. Bolin's TD came on a 20-yard run.

As a result of being named player of the week, the three-year letterman will receive a free gift from the men's department of Fulton's Department Store.

Previous players of the week were Marshall Logan, Steve Ingle, John Grier, Chris Blanton and Dale Russell.

GROUND COVERS

Ground covers are an asset to any landscape plan. They can turn a barren area into a blanket of lush growth. Ground covers are best planted in early fall or early spring in North Carolina. Spring planting is preferred in the mountains. There are a large number of ground covers suitable for use in the state. Stop by the County Agricultural Extension Service office and pick up a copy of Circular 529, "Ground Covers for North Carolina," for full details.

SUGAR N' SPICE

By SHIRLEY H. ALLEN

After a "foot sore" day, alternating hot and cold foot bath are delicious. Follow with leisurely foot massage.

Use real shaving cream, not hand lotion or soap, to shave legs—it does the job best, cuts down on cuts. Now available in feminine scents.

Peach, pink, coral, nectarine and beige are making lipstick headlines! Use singly, or mix to match any outfit.

Why not make headlines yourself with a stylish new shag haircut at TIARA HAIR DESIGNS. All hairdressers at Tiara have had special training in this new hair cut.

TOBACCO MARKETS

North Carolina is "tobacco land" from the coast to the mountains. The state's tobacco marketing system is the most extensive in the world. There are four flue-cured belts and the mountain burley belt. There are eight markets on the Border Belt, 17 on the giant Eastern belt, 10 on the Middle Belt and 13 on the Old Belt. There are three burley markets.

Sports Column Continued

other area stars. Al Graves, a 6-4 junior forward from Cherryville, averaged better than 15 points per game last year and one of the freshmen Holbrook is counting on 6-7 Donald Elliott of Dallas. Elliott led his high school team to two straight trips to the state 2-A tournament.

Holbrook says that if Elliott and his other freshmen perform as well as he expects them to, "we should have an excellent season. It's hard to improve on a 20-4 season," he added, "but we have our sights set on the district title and a trip to the national tournament."

PREVENT STREAKING

To prevent streaking when you wash a wall, start at the bottom and work up. Streaking is caused when water runs over a soiled wall, point out extension home management specialists, North Carolina State University. These streaks are hard to remove.

STORING SILVER

The anti-tarnish chest or a drawer lined with anti-tarnish fabric is the place to store silver when not in use. These fabrics are filled with tiny silver particles that absorb tarnish, explain extension home furnishings specialists, North Carolina State University.
