MORE ABOUT

Kakassy

Continued From Page One
The meeting Monday that the city adopted a sewer use ordinance last summer, details of the ordinance being drawn by a collaborative committee of city commissioners, industry representatives and officials of the state department of water and air resources. Mr. Kakassy served on the committee.
Key provision in the ordinance effecting industry with dye effluent is requirement that the firms build storage tanks to serve as holding basins so as to preclude "dumping", which creates overloads.

The ordinance states:
Storage Tanks: In order to promote equalization of flows, it shall be the responsibility of each person discharging a waste into the City's sanitary sewers having the following average daily volumes over a period of his normal week shall construct and maintain at his own expense a suitable storage tank, reservoir or pond of the corresponding minimum volumes:

Volume of Waste Discharged Average Gallons Per Day	Minimum Volume of Storage Tank, In Percent of Daily Volume of Waste Discharged
0 to 100,000	0%
100,001 to 200,000	50%
200,001 to 400,000	100%
400,001 to 750,000	150%
750,001 and above	200%

Firms effected were notified of the ordinance provision on storage tanks by letter under date of July 1, signed by the city attorney and superintendent of public works, and posted by registered mail.

Mr. Kakassy's letter to the commission noted: "In the past few months, K Mills has been pointed out in newspapers as a pollutant of neighborhood streams. The most recent was last Friday... November 19. The TV station, WBTV, showed a Mrs. Smith complaining about this. There was an old overflow from this pump running across the ground. This happened occasionally in the past. There are no signs of overflow around the pump and we believe this photograph was taken months ago."

Mr. Kakassy said at Monday night's meeting his firm would build holding basins.

Announcement was made by Dr. Charles Edwards, president of the Ministerial Association.

Traffic-Safety Committee Met

The city's traffic safety committee chaired by Comm. W. S. Biddix presented a number of recommendations to the city board Monday, which they approved.

Chairman Biddix recommended that parking be permitted on the west side of Cansler Street from 9 a.m. to 5 p.m.; that funeral homes put out signs "Funeral" on both sides of Cansler if needed, from Mountain Street to King Street; that parking be allowed for church services only on King Street to Childers Street; in the west side of Cansler from 9 a.m. to 5 p.m. as much space as is needed.

That parking be permitted on one side of West Gold Street; that parking be prohibited on Mountain Street for a distance of 35 feet from the intersection of Mountain and Juniper Streets after the Chairman and the Police Chief talk to the physicians who have a clinic on Mountain and urge them to encourage their patients to park in the clinic's parking lot; that parking be prohibited on York Road; that parking be prohibited on both sides of the streets for a distance of 35 feet from the intersection of Waco Road and Piedmont Street. These recommendations were unanimously approved by the Committee.

The Committee unanimously approved Chairman Biddix's recommendation that a stop sign be installed at the intersection of Gold Street and Phifer Road; intersection of Bridges and Ramseur Streets; intersection of Catharine and Fairview Streets.

The Committee unanimously approved Chairman Biddix's recommendation that City employees remove the obstructions to the view of traffic signs at the following street intersections: East Parker and Carpenter; Tracy and Childers; Bridges and Gantt; Gantt and Fulton; Gantt and Walker; Brice and Gantt; Park Drive and Ramseur; Ramseur and McGinnis; Broad and Phenix; Benet Drive and Chestnut; Dilling and Parker (4-way); City and Waco; Wilson and Monta Vista Drive; Wilson and Falls; Bennett Street and York Road; Spruce and Maple; Lake and Gold; Maple and Gold; Dickson and Cherokee; Crescent Circle and Hawthorne Road.

By unanimous consent, the Police Chief was requested to make a feasibility study of the areas behind business and industrial buildings and of alleyways with a view of prohibiting parking that obstructs the passage of garbage trucks and fire equipment.
