GI Tutoring Is Available

GI Bill students with academic problems can get Veterans Administration financed tutoring more easily under the provisions of a law that became effective October 24.

H. W. Johnson, Director of the VA Regional Office in Winston-Salem, said the new law (PL-92-540), which also increased educational benefits, removed the requirement that a student must be failing a course to be eligible for a VA-paid tutor. It also made tutoring available for the first time to wives, widows and children studying under the agency's Dependents' Educational Assistance program.

Tutorial assistance first became available in March 1970 under Public Law 91-219. It was designed for veterans and servicemen studying on a half-time or more basis at post secondary level who needed help in passing courses essential to their programs of education.

For this help, VA paid tutors up to \$50 for each month or portion of a month they tutored, up to a maximum of nine months. Under the new law, however, VA pays tutors for the actual time they tutor, up to a maximum

of \$50 a month. This tends to "stretch" tutorial benefits which eligible persons may continue to use until a total of \$450 is exhausted.

Johnson said neither law charges tutorial assistance against the veteran's basic educational entitlement earned during military service.

WHITE MAN RUINS INDIAN'S ECOLOGY!

A friend who went up into the "back country" around Boone in the fall brought back a piece called "100 Words on Ecology":

"Indian watch white man come. Cut trees. Make pig teepee. Plow hill. Rains come. Water run. Wind blow. Grass gone. Quail gone. Squaw gone. Papoose gone. Trees gone. Everything gone. No hay. No pony. White man touches land. Land ugly.

"Indian no cut trees. No plow land. Great spirit make grass. Buffalo eat grass. Indian eat buffalo. All time eat. Hide make teepee. Make robe. Make moccasins. Chips make fire. Indian make no waste. No have car. No burn gas. No pay taxes. No build dam. No give damn. White man crazy." - A. C. Snow in The Raleigh Times.

Weekly Health Tip

By WILSON GRIFFIN

Last week we spoke of tests on university students which proved that those who ate a good breakfast made decisions quicker and could work harder during the morning hours than the same students when they skipped breakfast. What is a good breakfast? Mark Twain usually sat down to a porterhouse steak 1 1/2 inch thick for breakfast. Basically, a good breakfast should consist of fruit or fruit juice, cold or hot whole-grain cereal, milk (with coffee or tea for adults), bread and butter or oleo. Bacon and eggs are fine. Small children don't need as much breakfast as teenagers, who, because of their rapid growth and development need more food than the average adult. Generally, breakfast should contain about 1/4 or 1/2 of the daily food intake. It is the most important meal of the day because it fills an empty fuel tank for the morning's activities.

This popular expression is heard often at this time of year and we couldn't help thinking how well it could apply to the medicine chest in your home. Father time has a way of being a spoiler and there are things on the shelf that you should examine and periodically replace. In addition partially used drug products and old prescription medicines should not be permitted to accumulate.

Start off this coming New Year with a special resolution to clear out the place where you usually store medicine products. It's one way of getting off to a good healthy start in 1973.

YOU OR YOUR DOCTOR CAN PHONE US when you need a delivery. We will deliver promptly without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.

MEMO TO ADVERTISERS

- Q. What are the 3 most important rules for profitable newspaper advertising?
A. 1. Your advertising message should be newsworthy, friendly, informative, easy to read. Give facts and news about your merchandise and service.
2. Advertise regularly. Make your advertising do what successful salesmen do—call on customers and prospects consistently.
3. Insist on audited circulation reports that give you the FACTS about the audience that your sales messages will have when you buy newspaper advertising.
- Q. What does A.B.C. do for me?
A. At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough audit of the circulation records of each publisher member. The results of each audit are published in an easy-to-read A.B.C. report for your use and protection when you buy newspaper advertising.
- Q. What are the FACTS in A.B.C. reports?
A. A.B.C. reports tell you how much circulation, where it goes, how obtained and other FACTS that help you buy advertising as you would make any sound business investment—on the basis of known values and audited information.
- Q. Are all publications eligible for A.B.C. membership?
A. No. Only those with paid circulation. This is important to advertisers because it is evidence that the paper is wanted and read.
- Q. Is this newspaper a member of the Audit Bureau of Circulations?
A. Yes. We are proud of our circulation. We want you to know the FACTS about the audience your selling messages will have when they appear in these pages. Ask for a copy of our latest A.B.C. report.
- Q. What is the A.B.C.?
A. The A.B.C. is a cooperative, non-profit association of 3,450 advertisers, advertising agencies and publishers in the United States and Canada. Organized in 1914. Brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.
