

Savings Plan

is for people

who can't

save a buck.

Ever notice how your paycheck sort of slips through your fingers before you get around to stashing a little away for the future?

Ever have a dream about a vacation, or a cottage you want, or a college fund you're going to build for your kids... then wake up ten years later, just to find out you're no closer to making your dream come true than you were when you first had it?

You're not alone. Everybody has trouble saving a buck these days. And, that's why there's a Payroll Savings Plan. Sign up where you work and an amount you specify will be set aside from each paycheck and used to buy U.S. Savings Bonds. Before you can get your hands on it. Before you can spend it.

It won't be too long before you have a nice nest egg built up, a bankroll that's really worth something. Join the Payroll Savings Plan. It's helped a lot of people... just like you.

Now U.S. Bonds pay 15% interest when held to maturity of 5 years, 10 months (4% the first year). Bonds are replaced if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

MORE ABOUT Bond Election

High and put it in the new junior high school, thus, relieving the overcrowded condition at KMHS, Jones pointed out.

The present junior high school at Central would serve as a middle school for grades six and seven. Present plans for the elementary schools include the addition of kindergartens.

School officials have pointed out that one of the main reasons for wanting the new junior high built close to KM High is so that both schools could use the current athletic facilities at KMHS. Central's athletic teams currently use City Stadium and the old Central gym in addition to the KMHS facilities.

Further stressing the overcrowded situations at KMHS, Jones pointed out that Mrs. Cozelle Vance, Dean of Women, presently occupies an office which was designed as a book room. Some books are being stored in an elevator shaft, he said.

Mobile homes are used for classrooms at KMHS and West Elementary School, as pointed out on the full-page advertisement.

Those businesses sponsoring the ad include:

Legion To Honor Local Employers

The Employment Security commission here is seeking local employers to receive American Legion awards for outstanding contributions to employment of handicapped workers.

"Each year we submit nominations to the American Legion for two employers in the area who we believe are performing outstanding services to the handicapped," reports ESC manager Franklin L. Ware Jr.

Two employers are chosen by the Legion each year to receive the awards, a company or firm employing 200 or more workers, and another employing less than 200 workers.

Employers are judged on their employment policies concerning the handicapped, according to Mr. Ware.

"We feel that one of the best ways to encourage employers to favor employment of handicapped workers, especially disabled veterans, is to publicly recognize those who have an affirmative attitude toward a worker's employment capabilities and not his disabilities."

Pointing out that a handicapped person's job performance often exceeds that of his co-workers, the ESC manager explained that often an employer's attitude excludes the handicapped from his work force.

"Others, however, take the positive approach and recognize the handicapped job applicants as a source of good and competent employees."

"These are the firms we'll recommend to receive the Legion award," said Mr. Ware.

Given annually by the American Legion, the outstanding employer award is a cooperative program between the Employment Security Commission and the veterans' organization.
