Six and one-half years after it be-gan, the city's Buffalo Creek water pro-

remaining parcel of property the city requires to complete the lake project.

Both Ambrose Cline, should he leave the \$97,000 in escrow with the clerk of Superior Court, and John D.

award in his case, have one legal means

of further preventing completion of the \$3,450,000 project: obtaining of an in-junction to prevent the completion work when the contractor returns to

Near-Great or Great

In his final illness, Harry S. Truman, 33rd president of the United States, fought for life as he had lived his life-whether as a captain of field artillery in France during World War I, to comeback from business failure during the 1921 depression, as chairman of the Senate committee bearing his name, the committee's duties being the prevention of boondogling on war goods contracts, and as Mr. President.

His fights had just begun when President Franklin D. Roosevelt died on April 12, 1945.

First there was World War II to bring to conclusion. Germany surrendered less than a month later on Mr. Truman's fifty-fifth birthday. Shortly thereafter came the decision to invoke the atomic bomb on Hiroshima and Nagasaki. This decision resulted in the end of the war in Japan, saved what he estimated a million American lives and as many or more Japanese lives. His Berlin airlift brought capitulation of the Russian blockaders and his Marshall plan decision blocked the Russians in that sector of the globe. He stopped the Communist expansion in Korea

He gained his most public disacclaim for a fatherly act when he vitup-eratively "cussed out" David Hume, the Washington music critic, who had disparaged his daughter's efforts to become a concert vocal soloist.

Tuesday night's comments by National Broadcasting System newsman David Brinkley added a final chapter to the Hume business. Harking to the incident, Mr. Brinkley recalled the heaps of criticism by many people "including me". Mr. Brinkley added that his son sang in a chorus recently in concert at the National Gallery of Arts. The performances got a nasty panning, said Mr. Brinkley, "by that same critic". "I know how Mr. Truman felt," said Mr. Brinkley. "The guy (Hume) is no good."

Mr. Truman liked to hold a hand of poker and enjoyed an occasional shot of bourbon and branch water, understandable enjoyable sports to the majority of American males. His chief sin, perhaps, was over-loyalty to his friends, which occasionally got him into hot water. Certainly, over-loyalty to friends is not of the cardinal sin variety.

Meanwhile, he was as respectful to the office he held as he expected others to be. He was a man of the people who could relate to the people, a man who could understand their language, as Mr. Truman could understand theirs. Senator Strom Thurmond, of South Carolina, who opposed Mr. Truman in the 1948 election as a Dixiecrat presidential candidate, labeled him a "good president".

It was Mr. Truman's thesis that a half-century is required to determine degree of a president's success in office.

Yet, only a half-dozen years after Mr. Truman left office at the depth of his national popularity, seventy-five historians rated him ninth among his 32 predecessors and his successor President Dwight D. Eisenhower. Mr. Truman was in the "near-great" category, not far behind the five "greats"-Washington, Jefferson, Jackson, Wilson and Franklin D. Roosevelt.

Would the historians today elevate Mr. Truman to a place with the five? Likely.

The people do.

Congratulation's to Dr. Sam Robinson, newly-elected president of the Kings Mountain Hospital medical staff.

Last day for paying 1972 city and county taxes without penalty is Tuesday. Penalty of two percent applies Wednesday, January 3.

Has it peen as long, or longer, since North Carolinians were represented by a Republican senator in Washington? (At the time Governor Brunswick was elected in 1896 and for some years thereafter, United States Senators were appointed by the General Assembly, not elected by the people.)

Unhappily, as in 1952, the United States is still involved in an undeclared but heavily shoot ing war. Over 450,000 ground troops have been brought home, but the "peace is at hand" hope of October 26 has been torpedeed. Just this week, the North Vietnamese put on their old record again, "Stop the bombing and we'll talk some more." President ndon Johnson bought the record, and found it cracked; President Richard Nixon bought the record and found the disk still cracked. What now?

But New Year's Day is close at hand and football remains the name of New Year's Day fare, along with blackeyed peas and hog jowls.

m·m

There's been a slight change of football format. One of the three big bowl games will be played New Year's Eve, that one down in New Orleans, leaving the New Year's Day gridiron business at Miami's Orange Bowl and Pasadena's Rose Bowl.

The Sugar Bowl managers, according to an interesting feature in the National Observer, playing second fiddle to the other two for several years, think they've got the winning format this year with 1) the best matched teams, on basis of the records and 2) the switch to New Year's
