

Garden Time

By M. E. GARDNER
N. C. State University

Perhaps the home gardener can take things a little easier in January than any month in the year.

This is a good time to catch up on your reading and to examine seed and nursery catalogs in preparation for your spring planting needs. Examine your own library and check on any new books that you would like to add. Visit your public library and examine their stock of garden books. Don't neglect the older books because there is a wealth of good reading in many of them.

If you are not subscribing to one or more gardening magazines, you might want to look around for a good one. It should have ideas to help you in planning and planting.

If you have house plants with large, smooth leaves, philodendrons, dracaenas, palms, rubber plants, fatschiders and other similar plants, you may wish to improve the appearance of the leaves. You can do this by washing the leaves on both sides with a sponge dipped in soapy water and squeezed out.

Plan your vegetable garden on paper. This is a real good idea because you can have the variety you want and the quantity of each vegetable that you need to supply the family table. Visit your county extension office and ask for a copy of "Garden Manual." If he does not have one or if you live too far away to make contact, write me and I will have one sent to you. You will find it to be very useful.

Prune fruit trees, bunch grapes and deciduous and evergreen shrubs except the early flowering shrubs such as forsythia and spirea. Wait until after they bloom in the spring. The fruit trees and grape vines should be pruned every year. The shrubs as needed. Muscadine vines should have been pruned in last November or in December. However, if you have not already done your pruning, I would do this job as soon as possible.

Keep fall planted trees and shrubs well supplied with water when the ground supply of water gets low. This is very important if you expect survival and satisfactory growth of your plants. No matter how cold the weather gets, keep them watered except when the ground is frozen.

Have your garden soil tested with special emphasis on lime and phosphate needs.

If you know of shut-ins in your community, do something nice for them. You will be glad you did.

Mrs. Greene Is Award Nominee

Mrs. Yvonne T. Greene has been nominated by the Cleveland County Unit of the North Carolina Association of Educators for the Terry Sanford Award. The award gives special recognition to a person who has exhibited creativity and innovation in the field of education.

Currently Mrs. Greene is Reading Coordinator and Project SEED (State Experimentation in Education Development) Director for the Cleveland County School System. Before coming to this unit Mrs. Greene taught in the Buncombe County and the Kings Mountain City Schools.

She received a BA degree in Elementary Education from UNC-Charlotte and a MA degree in Elementary Education from Western Carolina University. She is also certified in Supervision. Her professional associations include: NCAE (North Carolina Association of Educators); NEA (National Education Association); ASCD (Association for Supervision); and, Alpha Delta Kappa.

Mrs. Greene is the wife of Richard Greene, Principal of North Elementary School in Kings Mountain.

MOST DAIRIES
The six North Carolina counties with the largest number of dairy farms are Iredell, Rowan, Buncombe, Randolph, Alamance and Davie.

TENSION?

If you suffer from simple every day nervous tension then you should be taking B.T. tablets for relief.

Call on the druggist at the drug store listed below and ask him about B.T. tablets. They're safe non-habit forming and with our guarantee, you will lose your every day jitters or receive your money back.

Don't accept a substitute for relief, buy B.T. tablets today.
