HEALTH TIPS FOR A GOOD VACATION

Many a vacation trip has been ruined because some simple advance precautions were overlooked. Here are a few tips that will help avoid possible problems.

1. If you wear glasses or contact lens, carry an extra pair or set.
2. If you take regular medication, be sure you have enough to last the entire trip.
3. Get vaccinations early so you can minimize the chance of suffering a reaction when you are away.
4. If you have allergies, check the climate you can expect to encounter.
5. Try to come back a day early, don't rush home at the last minute and then rush off to work.

YOU OR YOUR DOCTOR CAN PHONE US when you need a delivery. We will deliver promptly without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.
