TO CALIFORNIA

"THOSE CRAZY EPISCOPALIANS"

are they sort of a private club ... just for the rich?

Ha! You should be around when the nearest Episcopal parish is trying to finalize its annual budget. You'd know better.

Actually, this church did acquire a bit of snob appeal during the early days of our nation. English colonists introduced their own Episcopal version of The Church of England. It was only natural that many of these "first comers" became the wealthy landowners, the merchants, the gentry of this young nation. George Washington, Alexander Hamilton and — indeed — three-fourths of the signatories to the U. S. Constitution were Episcopalians.

But today, the Episcopal Church represents an exceptionally-broad cross section of the nation: people of every vocation, social status, race and political persuasion gathered under one roof.

You see, Episcopalians believe strongly that the church is a proper meeting ground for men's differences. Christianity, they say, represents the world's greatest hope for reconciling the divisions between one man and another. You don't have to agree with your fellow man; you only have to live with him.

Your nearest Episcopal minister may have some very good thoughts for you on that ticklish subject. There's no obligation on your part if you care to pay him a visit.

Groverites Petition Longer Board Terms

Grover City Council has called a public meeting January 10 to hear requests from local citizens who want to expand the number of council members to five, lengthen their terms to four years and stagger their terms.

board at the October meeting.

Should the board decide to make any changes, it would pass an ordinance to that effect and the change or changes would go into effect at the next election. It would not effect the president councilmen's terms and an election would still be held
