ARE YOU A CLOSET IDEALIST?

Being an Idealist today is about as fashionable as wearing a Nehru suit. Even a 200th birthday party hasn't prodded many Idealists out of their self-imposed exile.

What can?

Maybe a quick and candid appraisal of the American way of life. Both our economic and our governmental systems are still strong. They remain freedom's best testimonial. Yes, people's shortcomings may have brought the systems into question, but they have survived the faults of their parts.

American freedom today is real, reliable and worth speaking up for. So let's speak up for it. And put ourselves on the line for it: Idealists established our brand of freedom in the 18th century. Idealists will make it flourish in the 21st century.

Idealists like you.

Today, America needs all the idealism she can get.
