Admitted August 23, 1977

Mr. Paul Patterson, Kings Mtn., N. C., Mrs. Irene G. Melton, Kings Mtn., N. C., Mrs. Howard Burch, Clover, S. C.

### BIRTHS

Mr. and Mrs. Hershel N. Davis, Jr., Rt. 3, Box 425C, Kings Mtn., N. C., a boy, born August 18.

Mr. and Mrs. Kenneth C. Hagans, Rt. 1, Kings Mtn., N. C., a girl, born August 19, 1977

Three breakins were reported during the early hours of Tuesday morning by Kings Mountain police.

Bridges Hardware, Mountaineer Pharmacy and McGill Clinic were all entered between midnight and 4 a. m.

Shotguns and handguns and an unspecified amount of cash were taken from Bridges Hardware, according to Det. Sgt. Richard Reynolds.

The breakin and theft was discovered between 7:30 a. m. Tuesday when the hardware opened for business.

Sgt. B. P. Cook and Ptl. Harry Martin, on patrol about 3:50 a. m. Tuesday, came on the scene at Mountaineer Pharmacy while the robbery was in progress.

Sgt. Reynolds said two suspects fled through the backdoor of the pharmacy carrying a box of items taken from inside, plus a money bag containing

change. The two suspects dropped the box and fled on foot into the woods near the pharmacy and police theorize the suspects had a car waiting.

Inside the box were low schedule drugs.

Following that report Sgt. Reynolds dispatched officers to check local doctor's offices and clinics for other

possible breakins. Ptl. David Bridges reported finding the rear door to McGill Clinic forced and inside signs of search. Nothing was reported missing from the clinic.

## 10 REASONS WHY

**YOUR CARPET WILL BE BETTER CLEANED WITH THE TURBOMATIC TRUCK MOUNTED CLEANER**

- (1) The cleaning plant is permanently mounted in the new steam van and is not brought into your home. The equipment noise is left outside.
- (2) The steam temperature, vacuum force and pressure operate at the optimum for carpet cleaning. There is no severe deficiency in conventional methods.
- (3) Temperature can be regulated for different types of fibers.
- (4) No mess. All the dirt is discharged to the outside.
- (5) No residue of chemical is left in the carpet.
- (6) Carpets dry faster because more water is extracted by the powerful vacuum engine.
- (7) The job is much faster because there is no re-filling and emptying of the machine.
- (8) The cost is less because of the speed in which the job can be done.
- (9) It removes over 98% of the bacteria from carpet while only 50% is removed conventional cleaning.
- (10) Carpet is cleaned by factory trained personnel.
