physically and or culturally in the manner which we all want.

"I, therefore, declare my candidacy for the Kings Mountain School System Board of Education with the hope of helping our school system continue the strong growth and progress it has made over the last decade. I feel that I fully understand the duties and obligations of a board member and, if elected, will serve to the best of my ability.

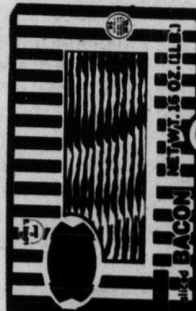

"I am the father of three children now in the Kings Mountain School System. I have tried to take an active part in community affairs in the past and have tried to focus on a positive, progressive and fair approach in all of my dealings. I feel that my experience in leadership positions of the past will enable me to be effective and open minded in facing the decisions and problems that the school board routinely faces.

"I wish to express my appreciation to those who have urged me to run for this office and have helped me in making this decision."
