#### WEEKLY Health Tips

From Wilson Griffin

If you plan a camping trip, take along a first-aid kit and manual - learn the essentials of first aid. Don't trust any surface water, no matter how clear and clean it looks. Drink only approved water, or boil or treat the water with purifying tablets. Bury all garbage; locate your latrine on a slope away from water. Don't over-exert yourself, especially at mountain altitudes. A physical checkup before you go is advisable.

# How To Save Money!

Find a store you can trust, get to know their specials and their brands. When they have a sale, load up. Hopping from store to store is costly in money and in time - especially if the "bargains" are brands or sizes you don't really want. If you or your family don't really like what you buy, it's no bargain.
