Christian Fellowship Church of Shelby provided the setting March 12th at 3 p. m. for the wedding of Miss Wanda Jean Cash and Paul C. Glenn, both of Kings Mountain.

The couple pledged vows of the double-ring ceremony before Rev. Mrs. R. W. Wilson.

Mike Sisk of Shelby was organist for the program of

nuptial music and vocal selections were by Mrs. Harry Darnell and Edward Stalvey, both of Shelby.

Jerry Dean Morrison escorted his niece to the altar and gave her in marriage. The bride's wedding gown was a formal design of satin peau fashioned with empire waist, lantern sleeves and V-neckline. Venise lace bands trimmed the bodice and extended down the front of the skirt enhanced by a bouffant back and ending in a Chapel train. A full-length veil of double silk illusion, edged in Venise lace, was caught to a matching coronet and she carried a bridal bouquet of roses and spring flowers.

Miss Paula Ann Cash attended her sister as maid of honor and bridesmaids were Mrs. Mickey Sisk, the bride's aunt, and Miss Debbie Gaskey of Kings Mountain.

The two attendants wore formal gowns of dotted swiss in light pink enhanced by pink and blue flowers and carried spring bouquets.

Darrell Gene Morrison, the bride's uncle, was best man. Mickey Cason Sisk and Leonard Smith served as ushers.

The bride's grandparents, Mr. and Mrs. Claude Morrison, entertained after the ceremony at a beautifully-appointed reception in the Fellowship Hall where the spring theme of the wedding was featured in decorative details. The tiered wedding cake was cut and served with punch, sausage balls, mints and nuts. Assisting in serving were Doris Devon, Patricia Wells, Alice Roark and Emma Ellison.

### The growing South: Its population is growing ten percent faster than the rest of the U.S.

### And Southern Railway is growing right along with it.

Everybody knows that the South is one of the fastest-growing areas in the U.S. But what you might not know is that the South's population is growing a full 10% faster than the rest of the country.

Needless to say, we at Southern Railway are happy about all this because each time the South grows, we grow, too.

After all, who do you think carries the raw materials to the new plants that are part of this growth? And their finished goods to market? In large measure, we do.

And, as the South's population grows who do you think brings the things these people need? The cars, the carpets, the appliances, the clothing, the sporting goods and the food? Largely, we do.

But, we're not growing just to keep up with the ever-increasing population. We're growing to be prepared for an even bigger South of the future.

According to the federal government, the

railroads will get an increase in freight volume of 143% by 1990. And the railroads' share of market will go up by a big 24%.

Will we get the lion's share of these increases when they come? Maybe. But whatever happens, we're getting ready for them by expanding right now. We're putting in a new \$43 million freight classification yard in North Carolina. We're adding to our microwave communication system, which is already the largest in the South. And we're laying double track where one used to be enough to handle the traffic in the area.

So, even though we're growing right along with you, we're also growing ahead of you.

Because when the demand is there, we want to be there, ready to serve.
