The world's largest squash was grown by Bob Ford of Pennsylvania. From a vine yielding 1,016 pounds of fruit, he picked a 451-pound squash that grew, on the average, 7 1/2 pounds a day.

Because credit unions are made up of either your colleagues at work or members of your union or civic group, they know you personally, point out credit experts at the National Association of Federal Credit Unions. That makes credit easier and more pleasant to get.

You And Your Credit

HELPFUL SUGGESTIONS
If you are paying \$15 a month to six different credit obligations and \$90 a month is more than you can handle, it may be wise to take out a consolidation loan. With this you can pay off your current obligations and reduce your monthly payments.

Credit costs money and one low-cost source of credit that many Americans overlook is a credit union. Members get high rates of interest on their savings and pay lower interest on their loans.
