

—GENE TIGNOR—

Veteran Firefighter Is Re-Elected

Veteran Kings Mountain Fire Chief Gene Tignor has been re-elected to serve another term.

Chief Tignor was unanimously re-elected at Tuesday night's meeting of the Kings Mountain Fire Department.

Other officers are Johnny Caldwell, assistant chief; Bud Ware, captain; Carl Greene, Captain; David King Lieutenant Bill Herndon, Secretary and Charles (Pete) Peterson, Treasurer.

Course From ACT

Parents! This Is For You

(Begins On Page 1A)

Long, father of a first grader and a four-year-old, predicted that in a year's time, after parents take the course, a "C" student will get "B" marks in eight percent of the cases and in three to five weeks after a parent is enrolled he will begin to notice "little things in his child's social behaviour." Within five to

seven weeks, Long says that academic changes can be seen and are reflected in higher marks by the students.

"Have you hugged your child today?" is the familiar bumper sticker distributed by the sponsoring organization. Brochures detailing the course of instruction will also be distributed throughout the school system.

The first class will accommodate 160 mothers and fathers and Director Long suggested that the Fall season is the most appropriate time to begin the first classes.

ACT President Lubianezki noted that the course for parents is a project of Association of Classroom Teachers but that the whole community and county will be ultimately involved if it is to be successful.

In Search Of The Living God

Enoch Described Sights In Paradise

Enoch goes into detail about the beauty and grandeur of the interior of this earth. He tells of the tremendous height of the mountains, and the awful depth of the valleys. He saw taller trees, wider rivers and larger flowers than any that grow on earth. He saw more kinds of precious stones and metals than men have ever seen on earth.

Enoch said, "My eyes beheld many secret things; a mountain of iron, a mountain of copper, a mountain of silver, a mountain gold, a mountain of fluid, and a mountain of lead. And the angel with

By **DON KISTLER**

powerful upon the earth (during His 1,000 year kingdom reign" Enoch 51:2-4.

In this world precious stones are very scarce, but Enoch saw mountains of costly metals and priceless stones in paradise.

Enoch said, "I saw seven mountains that were higher than all the mountains on earth." Enoch 76.

At another time he saw six mountains formed of glorious stones. "Three were red stones, and was margarine, and another of antimony. The middle mountain reached to heaven like the throne of God... the top of which was sapphire" Enoch 18.

"The angel who was with me said, "This high mountain... whose summit is like the throne of God, is His Throne. The Holy One, the Lord of Glory, the Eternal King, will sit there when He shall come down (from the New Jerusalem) to visit the earth with goodness." Enoch 18.

Three Thrones: John tells us about the throne of our Lord Jesus in the New Jerusalem, Rev. 4:2. Enoch tells us about His sapphire throne in Paradise, Enoch 24:8. And Ezekiel tells about His future throne in Jerusalem on earth, Ezekiel 43:7.

Enoch said that the above mountains of Precious stones were magnificent, glorious in appearance and very beautiful. In other words, they are composed of bright, sparkling stones with no earth, grass or trees to hide them from view. We all know of course that there are no mountains of precious stones, or mountains of costly metals on the exterior of the earth, Enoch 24 and 25.

Enoch tells about mountain ranges that are much higher than mountains. This causes great water falls and clouds of spray or mist. See more details in the "Book of Enoch" call us or write us for information of how to obtain the book.

High mountains on the exterior of the earth are covered with snow and ice, but the high mountains in Paradise are covered with grass, lovely flowers, bushes, trees and water fountains.

For all the wonderful things that our Lord Jesus has prepared for us in the glory land, we will praise Him now.

Large flower trees never

seen on earth — Glorious Beauty: Enoch said, "I saw a tree, such as I had never yet smelt. Neither were any other like it. It has a fragrance (perfume) beyond all fragrance. Its leaves and blooms and wood wither not for ever, and its fruit is beautiful. It resembles the dates of a palm... very delightful in appearance. This may be that literal "tree of life" Rev. 2:7.

The angel with me said, "as for this fragrant tree, no mortal is permitted to touch it till the great day of judgment (of rewards)..." It shall then be given to the righteous and holy. Its fruit shall be food to the elect. This tree shall be transplanted to the Holy Place (in Jerusalem after Jesus Appears). Then shall the righteous rejoice... and be glad... Then I blessed the Lord of Glory, the Eternal King, who has prepared this (tree of life) for the righteous" Enoch 24, Rev. 2:7, Rev. 22: 2

"I saw trees with the fragrance of frankincense and myrrh, and trees like the almond tree;" Enoch 29. The fragrant odor (perfume) of the different flower trees filled the air. I saw many large trees that were very beautiful and glorious. Their perfume was agreeable and powerful."

"I saw groves of trees... aloe trees and trees full of stacte... when burnt it smelled sweeter than any fragrant odor. I saw flower trees that were very great, lofty, beautiful and magnificent." Enoch 30 and 31.

Many of the things we print in the Mirror Herald may not be yet seen by other believers, but we stand on the Rock (Jesus). We are grounded in basic truths of salvation (Yeshua).

We at the ministry of Positive People Worldwide wish not to debate, nor to destroy any orthodox Bible truth. But we as a body, promote and teach greater truth not yet known to believers.

Maxine Departed On Friday

To Haiti With Love

(Begins On Page 1A)

donated their vacation time, are paying their own transportation costs and furnishing the tools to work in a mission camp 40 miles from Port-au-Prince in a remote village.

Mr. and Mrs. Allan Darby, directors of the camp, head 15 mission-supported schools in Haiti.

To the tourists who daily swarm in from cruise ships, Port au Prince, the capital city, lives up to the travel brochures. It is a Kodak dream filled with brilliant and gaudy colors enhanced by the black Haitian skin. First impressions of a visitor coming off the cruise ships is that of native guides swarming about and barefoot children and adults begging nickels and dimes from the tourists. There is the gabble of eager bargaining, shuffling of feet and hawking of straw goods, wood carvings and flowers.

Team members were told before they departed for Haiti that people suffer burns in voodoo rites. Fifty percent of the babies die before their first birthday. The life expectancy is only 45 years. The overwhelming majority speak Creole, the unwritten dialect, trapped by their poverty.

Mrs. Rhea said that everyone will work with the women helping with construction work as well as serving as camp cooks. The group have taken their own food ham, canned goods, beans, rice, and coffee. They

will reside in army-type barracks that were built by previous work teams and will construct a two-story 34x34 home to be used by the camp director and counselors. Team members are furnishing their own tools and churches are providing construction supplies.

Work clothing for 80-100 degree weather was being packed by Mrs. Rhea last Thursday, as she also completed her required vaccines and acquired birth certificate and passport.

Since Haiti is a dictator country, team members were told not to discuss politics and not to give the natives candy or money because Haitians resent these things, said Mrs. Rhea. She said the area volunteers plan to leave their work clothes at the camp to be distributed by missionaries along with the boxes and boxes of gifts from Methodist Churches.

Mrs. Rhea's "vacation" workday will begin early, at 6 a. m. The barracks, team members were told, do not have hot water or indoor toilets. Kerosene stoves are used for cooking.

Why did Tence Rhea decide to make the trip?

The Kings Mountain church leader said she first learned of the trip from her pastor's wife, Mrs. Robert Boggan, who serves on the Council on Ministries in the Methodist Conference. Connie (Mrs. Mike) Moss, youth worker in the local church, had made a similar mission

trip while working in Concord. "This trip is one way I can make my Christian witness to these people," said Mrs. Rhea, who is convinced that we in this country can help "people who are under dictatorship and who can't help themselves." She plans to use slides and tape recordings to convey to her own congregation the need for missions.

Mrs. Rhea said that seven teams will go out from Methodist Churches in the Western N. C. Conference between November and February to build bridges of Christian love in Haiti. Over 200 church members comprise the teams going out also to Panama Canal Zone and Puerto Rico.

"I'm real excited about this venture in faith," said Mrs. Rhea this week, as she accepted from Pastor Bob Boggan a check from the congregation and children's gifts from the members.

Maxine also plans to keep a diary upon suggestion of Connie Moss, and to present programs in the community upon her return.

Many never see beyond the tourist view of Haiti.

Maxine Rhea and her companions will remember names and faces of Haiti many months after they return home and they and others of this team group will be telling the Haiti story to anyone who will listen and hoping to gather some leaves and fishes to help a few miracles happen.

County To Receive Road Funding

For the second straight year, Cleveland County can look forward to benefits from 1977 highway bond funds that will be used to improve secondary roads.

In its monthly meeting the North Carolina Board of Transportation allocated \$15 million from funds authorized by the State Highway Bond Act of 1977 for improvements to the state's 59,878-mile secondary road system. Cleveland County's share of the \$15 million allocation is \$201,328, based on a formula prescribed by the state legislature.

According to the formula, each county receives a percentage of the total funds available, determined by the un-

paved miles of secondary roads in the county in relationship to the total mileage of unpaved secondary roads in the state.

Cleveland County has 289 miles of unpaved roads, while the total mileage of unpaved state maintained secondary roads in North Carolina is 20,058.

Log Cabin Clinic Scheduled Saturday

Fifty-one home owners in the area will learn how to construct their own log homes in a free clinic Saturday at 1 p. m. at Rustic Log Homes on W. King St.

Log dealers from the two Carolinas, Florida and Tennessee will lead the demonstrations and build a replica of a log home at the site and show slides of home construction.

Eight dealers and plant officials will gather for an 8:30 a. m. breakfast Saturday morning at Ramada Inn, after which they will come to the site, the former location of Elmer Lumber Co., to lead the clinic.

FOOD AND ENERGY One-sixth of the total U.S. energy supply is used to produce, process and prepare food. — CNS
