TRACTOR-TRAILER TAKES NOSE DIVE—A tractor-trailer rig crashed cab-nose first onto U.S. 29-74 near Kings Mountain Friday when it skidded during a heavy downpour of rain. The big rig, operated by Floyd J. Dyer of Stone Mountain, Ga., was traveling South on I-85, plunged about 70 feet through the air from the I-85

south overpass before crashing through the guardrail and into the pavement below. Dyer, in serious condition at Gaston Memorial Hospital, was pinned in the wreckage 30-40 minutes. Highway Patrolman Alan Lancaster investigated.

Census Survey

How many KMs are holding more than one job? How many work overtime and what is the rate of pay?

These are a couple of questions people in the area will be asked during the week of May 14 by interviewers from the U.S. Census Bureau.

Mrs. Vera Morrison of Shelby and Mrs. Ethel Rockett of Gastonia will conduct the interviews to provide statistical data for the U.S. Department of Commerce.

LADIES NIGHT

The Kings Mountain Kiwanis Club will hold its annual ladies night program Thursday and on May 17 Lyn Brunner of Textiles, Inc. will speak and award trophies to the Kiwanis Talent Show winners.

Answer To The Question

The following is a question asked by a person attending a recent Tuesday night Bible study session at our learning center on Cleveland Ave. I wish to answer that question publicly.

"I have heard you say at Positive People Worldwide that the four Gospels; Matthews, Mark, Luke and John, are considered by you as the Old Testament scriptures. Would you please explain why?"

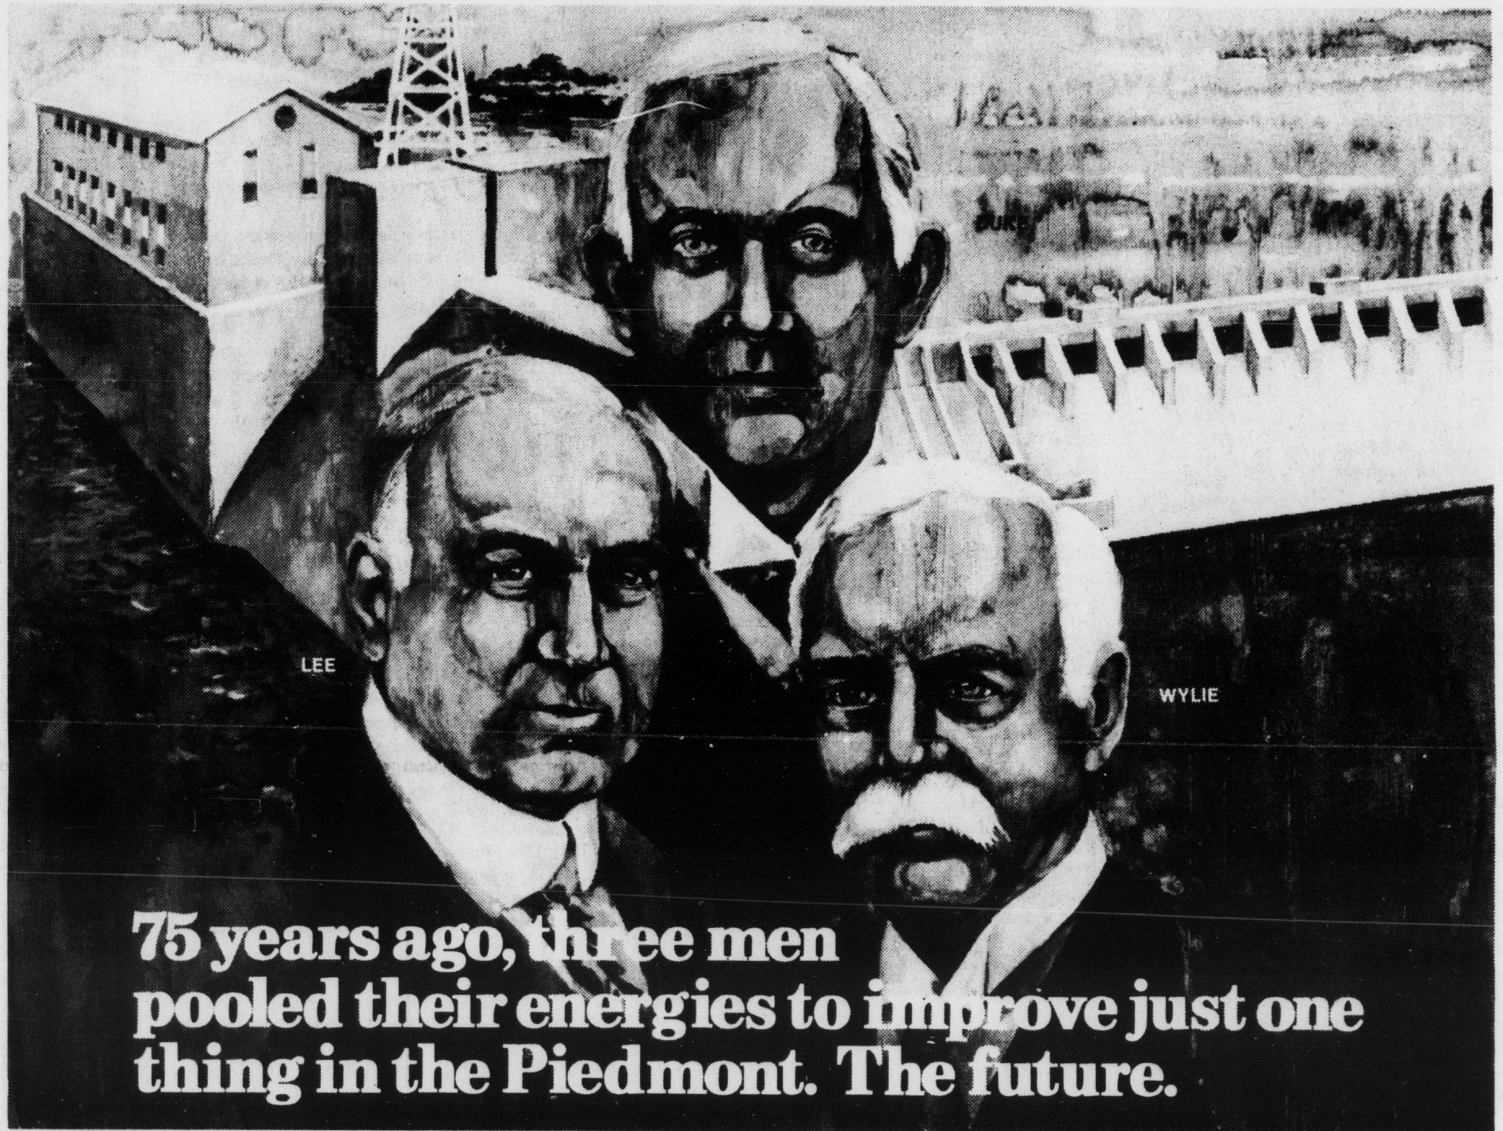

Yes, I have said that and maintain that Jesus, the God of Israel, The Messiah, lived under the letter of the Law and those books reveal His life as He walked the earth under the Law, to fulfill the Law.

I would like to say in explanation that for a full 150 years after Jesus the Christ, the Four Gospels were not considered Holy Scripture. Justin Martyr called them "Memoirs." Only the Jewish sacred writings enjoyed that stature in the early church along with two books the Gentiles still do not use in understanding the true Word of God: The Book of Enoch, and The Book of Jasher.

We do carry these two books for those who wish to know the deeper things of God. They are sacred Jewish Scripture and scrolls that are mentioned in the Holy Bible; Second Samuel 1:18 - Jude 5:14 - Hebrews 11:5 and Joshua 10:13.

Many of the things we publish in The Mirror-Herald may not be seen by other believers, but we stand on the rock (Jesus). We are grounded in the basic truths of salvation (Jeshua).

We at the ministry of Positive People Worldwide wish not to debate, nor to destroy any orthodox Bible truth. But we as a body promote and teach greater truth not yet known to believers.

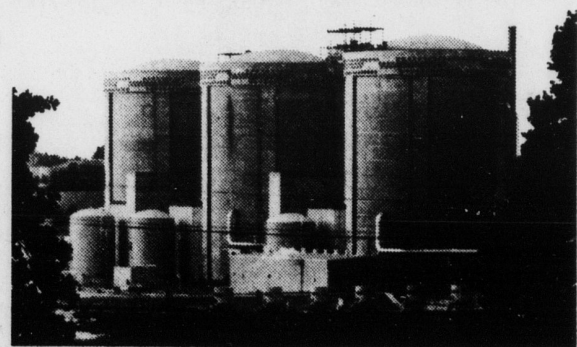

75 years ago, three men pooled their energies to improve just one thing in the Piedmont. The future.

Then came electricity.

At the turn of the century, William States Lee had already gained practical experience in electric power plant design and construction.

Dr. W. Gill Wylie, a prominent New York surgeon who hailed from Chester, S.C., hired Lee to complete construction of a hydroelectric plant on the Catawba River near Rock Hill. On March 30, 1904, electricity from the plant flowed through copper wire to a nearby cotton mill.

With the completion in 1963 of Cowans Ford Dam, which forms Lake Norman, the last free-flowing waters of the Catawba were harnessed. And Lee's dream came true.

Today, hydro plants and huge, modern steam-electric plants—fueled by coal or uranium—continue to provide energy for Piedmont people and industries.

What's next? Only the future can tell. But you can be sure of one thing—electricity will be a part of it.

Lee, a brilliant engineer from South Carolina, dreamed of the day that dams and power plants would convert the Catawba River into useful energy for all the people of the Piedmont Carolinas.

Dr. Wylie conveyed Lee's dream to James Buchanan Duke, a wealthy businessman who was Wylie's patient. The three men pooled their energies and talents—and formed the Southern Power Company, later to become Duke Power.

Electricity came to the Piedmont Carolinas in 1904. The rest is history.

DUKE POWER

FAMILY PHOTOGRAPHY

Family Photography is now bringing the studio into your own home. Now is the time to catch the loved one in your life in a real spring time setting. We will not use any artificial props. Get away from the plastic tree and cardboard background and into the real you! Call now for information, and appointment while spring is still here.
