Preparing For Adolescence Film At Boyce Memorial

"Preparing for Adolescence: The Origins of Self-Doubt" is one of two films designed to help Junior and Senior Highs and their parents understand those critical years of transition between Childhood and Adulthood. This film will be shown Sunday evening, March 14, at 6 p.m. in the sanctuary of the Boyce Memorial Associate Reformed Presbyterian Church, located beside the Kings Mountain Hospital. A second film, "Preparing for Adolescence: Peer Pressure and Sexuality,"

will follow March 21.

These films feature Dr. James Dobson, one of America's leading Christian authorities on the family. Dr. Dobson is Associate Clinical Professor of Pediatrics at the University of Southern California School of Medicine, and author of several very popular and helpful books, including one entitled **Preparing for Adolescence**.

The Boyce Memorial ARP Church offers the films as a service to any in the community who wish to better understand the years of adolescence. Especially, the church encourages teachers, parents and grandparents of young people in or about to enter the years of adolescence, and young people themselves to attend. Youth activities and a nursery will be provided during the showing of the film for those with smaller children.

How to fight the cold bug

The "cold bug" has a plan — to lay you up this winter with a miserable case of sneezing, coughing, fevery aches.

Here're some ye ol' pharmacy tips: First, the tannins in grape juice (fermented or plain) are lethal to viruses. So, try drinking grape juice regularly

this winter. Then, let me know how well this tip protects you.

Also, colds are most often caught by hand-to-surface contact and subsequent transfer of the "bug" by hand-to-eyes, or mouth. Thus keep your hands away from your face and wash often.
