

FOR WORK AND PLAY — The 1983 Ford Ranger brings to market the fuel economy you would expect from a compact truck, plus many of the attributes of the industry's most popular selling pickup — the full-size Ford F-Series. On the work side, Ranger offers big truck features such as Ford's Twin-I-Beam front suspension, half-ton-truck payload capacities, double-wall construction and body on ladder-frame construction. On the play side, Ranger can be fully equipped with appearance and power options and such comfort and convenience features as sporty bucket seats, plush carpeting, instrumentation, stereo radio choices and air conditioning. The Ranger is a featured attraction in Ford Division's exhibit at the 1982 World's Fair in Knoxville, Tenn., May 1 — Oct. 31.
