Leukemia Society Asking For Funds

The Leukemia Society of America, North Carolina Chapter will be conducting its annual residential campaign through September 17 throughout the state of North Carolina. Volunteers have been recruited in Kings Mountain to march their block during this campaign and contact their neighbors for contributions.

The Leukemia Society of America is dedicated towards the conquering of leukemia. Funds from the residential campaign will be used in the state on research and patient-aid. At the present time the Leukemia Society of America, North Carolina Chapter has \$459,935 in research projects granted in the state of North Carolina. These research projects are being conducted at Duke University and the University of North

Carolina-Chapel Hill. The Leukemia Society of America is also providing financial assistance to 325 patients in the state of North Carolina. Four of these patients are from Cleveland County. In spite of remarkable medical advances in the last ten years, leukemia remains a number one killer disease of children. Leukemia is no longer a hopeless disease. Years ago over 90% of everyone with leukemia died within six months but today the picture is much brighter for children and adults due to the research that has helped in treatment and diagnosis.

When a volunteer marcher calls on you in the upcoming residential campaign, remember that the funds will be used here in the state of North Carolina for research and patient-aid.
