Mailing Tips For Holidays

"The Postal Service wants to help mailers get the best service," Postmaster Fred Weaver said today. He offered these tips for safe, timely delivery of your holiday packages.

- Address your package correctly and completely and use the right ZIP Code.
- Use a sturdy container such as a corrugated box for items of average weight.
- Cushion each item in the container using crumpled or rolled newspapers, plastic chips or plastic or fiberboard inserts.
- Seal your parcel with reinforced filament tape.
- You don't have to use wrapping paper on boxes; simply cross out old addresses and clearly print the new address on one side of the parcel.
- Ask your postal clerk about delivery times and prices for parcel post, priority mail and express mail. Then decide which combination of fast delivery and economy best meets your needs.

KM Board Is Stressing Conservation

From Page 1-A

Commissioner Jim Childers said he "likes the idea but would this become part of the building code? Once it's put in the building code it becomes compulsory." Moss said, "I don't know, but it would ultimately have to be carried out by the building inspector." Moss said his aim in presenting the recommendation is that it would be "strictly voluntary, above and beyond the requirements."
