

At Schiele Museum Sunday

World Review Puppet Show Slated

The World Revue Puppet Show, by the Appalachian Puppet Theatre, will be held on Sunday, Dec. 11 at the Schiele Museum of Natural History in Gastonia.

The two free performances will be held at 3:15 p.m. and 4:15 p.m.

World Revue is a potpourri of puppets representing cultures from around the world.

The puppets are three feet or larger and are manipulated in the Japanese Bunraku style. The puppeteers are clothed in black robes and operate in full view of the audience.

The show consists of a series of vignettes: an old mountain man, the storyteller (tells Appalachian mountain tales and jokes and plays traditional music on his guitar); a Japanese maiden

and sumurai act out a love story.

Also a comic English jester (in Commedia dell'arte style) does acrobatic feats; an American Indian dances the "Dying Eagle Dance," depicting a story of the magnificent eagle, his flight and death.

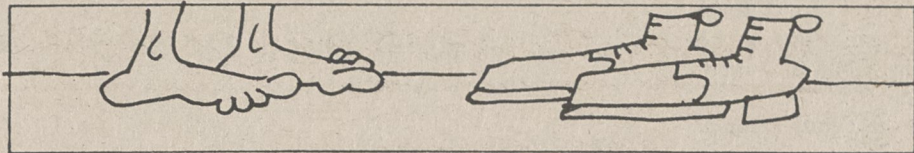

All segments are accompanied by music appropriate to each culture. The performance time is 50 minutes.

Kids of all ages are welcome.
