

Harlem Nocturne Coming To Gaston February 22

Dallas, N.C. - The Gaston College Fine Arts Council will present Atlantis Productions who brings the same creative team that wrote and produced the hugely successful "From Harlem to Broadway: The History of the Black Musical" that has been thrilling audiences for the past two years, and now has an all new musical entitled "Harlem Nocturne: A Salute to

Black Performers from the Cotton Club to Broadway."

Based on a concept by Atlantis Production resident producer, Tad Currie, "Harlem Nocturne" will feature arrangements by Michael Mimbs whose previous works for Atlantis Productions included "From Harlem to Broadway" and "The Best of Hollywood: Music from the Movies." Serving as Associate

Producer and writer will be Robert Cleveland who served in the same capacity on from Harlem to Broadway."

Featuring a cast of six highly talented young black performers, "Harlem Nocturne" will feature the choreography of Byron Love who will also be in the cast, this marking his third tour for Atlantis Productions. The new set has been designed by Mr. Currie and executed by Gene Erickson who will also create new costumes for this production. The entire production will be directed by Currie and the company manager will be Hank Bevis.

You'll hear Scott Joplin's "Maple Leaf Rag," Jelly Roll Morton's "Kansas City Stomp," as well as music composed by Eubie Blake, Duke Ellington and Fats Waller, among others, and made famous by such singers as Bessie Smith, Josephine Blake, Lena Horne, Pearl Bailey, Ivie Anderson, Ertha Kitt, Della Reese and Mahalia Jackson, to mention only a few.

"Harlem Nocturne" will be presented at the Gaston College's Myers Center Auditorium on Wednesday, February 22, at 8:15 p.m. Tickets are \$5.00 for general admission and will be sold at the door. "Harlem Nocturne" is an evening of musical theatre you won't want to miss.

WHIPLASH

Whiplash injuries can result from a sudden backward and forward whipping movement of the neck, caused by an auto collision, a fall, a powerful slap on the back, or even a violent sneeze. The ligaments and muscles controlling the spinal segments are stretched or sprained, allowing the vertebrae to slip into abnormal positions. Nerves are then "pinched" or irritated, giving rise to headaches, nausea, dizziness and other pain.

Special Exhibits At CC Museum

February 10 marks a step forward for the Cleveland County Historical Museum, located on the courthouse in downtown Shelby, North Carolina. That is the day the first in a new series of special exhibits will open to the public.

The first exhibit, on special loan from Duke University Museum of Art, through the Duke-Semans Foundation, will be on Peruvian Pre-Columbian material dating from 900 B.C. to 1535 A.D. and will run from February 10th to mid-April. The Duke University collection, one of the top six in the nation, was collected primarily by Professor Emeritus Paul Clifford.

Many graphics, maps and information sheets will accompany the exhibit consisting of eighty-three ceramics, stone, wood, copper and silver pieces, many which will be on display for the first time in North Carolina. The exhibit will attempt to trace the development of some of the important cultures from the early Chavin at 900 B.C. to the Inca who fell to the Spanish in 1535 A.D. Everyone, especially those interested in history, art or the

development of man, will enjoy the sculptural and molded pottery, some which have built-in whistles to call the spirits. The largest piece is a pottery figure urn from the Chancay culture 900-1500 A.D.

For more information on tours, call the museum at 704, 482-8186. The museum hours are 9 to 4 weekdays and 2 to 5 Sundays. The museum is closed on Saturday and there is no admission.
