Power Going Up

The zoning ordinances comply with all state ordinances but according to officials the biggest problems are in administering them in the communities. The zoning maps were also updated in 1948 and in 1968 and 1976.

"This new 'baby' shows a lot of growth in the Kings Mountain city and perimeter area since 1976", said Griffin, who said the committees were quite proud of the work being done in these areas.

In other actions, the board established a Human Resources Committee to be made up of volunteer citizens and set April 8-14 and Sept. 16-22 as Clean-Up Fix UP Weeks in Kings Mountain and named Commissioner Norman King as overall chairman. The state Department of Transportation is sponsoring a similar observance in which citizens are invited and encouraged to clean up properties during Spring and Fall.

The board of commissioners approved final plans for development of Parcel No. 76 which was recently purchased by Eddie Huffstetler from the city for \$800 at the northeast corner of King and Cansler Street and is

part of the urban renewal development program. Mr. Huffstetler plans to build a convenience store estimated to cost \$40,000. The brick building will have a glass front.

Gene White, Executive Director of Community Development Program, emphasized again that the Farmers Home Administration is offering to those who qualify a one percent to three percent low interest loan for rehabilitation of homes, including painting and weatherization. He said that his office volunteered to "get the word out" and are screening applicants. Citizens on fixed incomes less than \$10,000 qualify. White pointed out that this is one function of a human resources committee in town to give citizens information on programs available to those in need. Mayor John Moss said he is most concerned about this group of citizens and this is just one of the ways a human sources committee may help fellow citizens and neighbors.

The commissioners set March 12th at 7:30 p.m. for public hearing on preliminary assessment roll for the street improvement project on Guyton Loop on Church Street to Church Street, Merrimont Avenue from Garrison Drive to end of Street and Belvedere Circle from Wattersson Street to Wattersson Street.
