Hospital To Begin Home Health Service

As an innovative step to combat rising health care cost, Kings Mountain Hospital has announced that home health services are now being offered. Kings Mountain Hospital entered into an arrangement with Total Care, Inc., a local home health agency, to provide continued care at home following discharge from the hospital. Total Care, Inc. specializes in comprehensive home health services.

Grady Howard, Administrator of Kings Mountain Hospital stated that home health care, in many instances, can shorten a patient's length of stay. Early discharge from the hospital can mean significant savings to the patients.

DEATH

ROY J. HAMMETT

Roy J. Hammett, 45, of 900 Princeton Dr., died Wednesday morning in the Kings Mountain Hospital. Funeral arrangements, which are incomplete, will be announced by Harris Funeral Home.

Under terms of this arrangement, home health services are ordered by the patient's physician and carried out under a plan of treatment prepared by the physician. Services available are nursing; physical, speech, occupational and nutritional therapies; home health aide; and medical social services. In addition, medical supplies and equipment are available.

Peggy Davis, President of Total Care, Inc., expressed pleasure with this agreement. "Our agency is pleased to be associated with an institution such as Kings Mountain Hospital. The hospital is committed to providing the community with high standards of medical care at the lowest cost consistent with quality care. Our organization shares in this belief."

Howard indicated that new Medicare reimbursement regulations are possibly creating earlier patient discharges. Now, transition from the hospital to the home setting can be, in many instances be made easier, with appropriate home health assistance.

Those interested in this new program may contact the Social Services Department, Kings Mountain Hospital, at 704/739-3601.
