

Meeting Set February 22

Two organizations are teaming up on February 22 to sponsor an area meeting for people interested in the use of wood in home construction.

The day-long meeting, which will be held at the Ramada Inn-Coliseum in

Charlotte, will be sponsored by the North Carolina Builders Association and the North Carolina Agricultural Extension Service.

Nancy Abasiekong, Cleveland County Home Economics Extension Agent, said the purpose of the

meeting is to offer builders, architects and other interested persons practical information on the use of wood in home construction. Emphasis will be placed on cost and energy saving building techniques.

It is estimated that the information could save builders from \$150 to \$500 in the construction of an average house. It could also result in the wood lasting longer and being more satisfactory to the homeowner.

The February 22 meeting is one of ten such meetings planned across North Carolina in late January and February. Speakers will come from the Extension Service at North Carolina State University and the American Plywood Association.

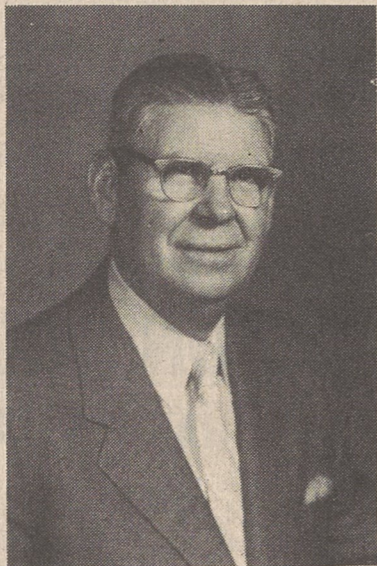

Persons interested in attending the meeting should contact the Cleveland County Extension Office or the local chapter of the North Carolina Home Builders' Association.
