

BUSINESS OPPORTUNITIES LOSING THE INCOME RACE?

We were too until we became affiliated with a company that made a big change in our lives because we use its products and practice its marketing concepts. These products are designed to affect people's health in a positive way by promoting good, sound, basic nutrition with the finest nutritional products available anywhere today.

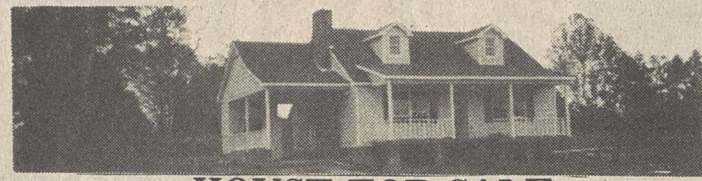

After using these products and experiencing their benefits to your health there is a business opportunity for you to share the products with others and contribute to your economic health. It's very simple and that is the best part.

We have recently returned from Los Angeles where we met people from all over the world who have become successful by doing just three simple things. Like the bankrupt realtor, for example. Some bad speculating had left him head over heels in debt. Faced with the heartbreak of personal bankruptcy, all that could save him was a miracle. And he found it with company. Within 60 days this "loser" was head over heels in money. He was winning again.

Two other losers now have annual incomes of more than one million and fifty others have incomes of more than one hundred thousand dollars (\$100,000) per year. We are unusually excited ourselves because we earned a large bonus check from our company that made us big winners in the income race too.

Whatever it takes to make you a winner — our company gives.

THEY NOW!

Valentine's Day may be our most romantic holiday, but, say experts, it didn't start out that way.

Then: Scholars say the original St. Valentine was one of three Christian martyrs, all named Valentine, beheaded in the Third Century A.D. One fell in love with a jailer's daughter, to whom he sent a love letter signed, "From Your Valentine." Another theory suggests Valentine's Day became associated with lovers because people in the Middle Ages believed birds began to mate on February 14. By 1773, English settlers brought the holiday's customs to America, along with special Valentine's "writers"—booklets containing poems and messages, to be copied onto decorative sheets and sent to friends and lovers.

Now: Valentine's Day—and romance—is as cherished and popular as ever, and no one knows that better than the people at Harlequin, the leading publisher of romance fiction. Still, the day poses problems for some: there's a great deal of extra work for the postal workers in Loveland, Colorado; Darling, Pennsylvania; Romance, Arkansas; Eros, Louisiana; and Kissimmee, Florida; whose names inspire people from all over the nation to send their cards there to be post-marked and forwarded.

DID YOU KNOW?

If all goods and services were taxed at the same rate as cigarettes, the retail price consumers pay for them would be one-and-one-half times higher, according to R.J. Reynolds Tobacco Co.

In other words, if taxed like cigarettes, a \$10,000 automobile would cost \$15,000, a \$500 television set would cost \$750, and a 40-cent candy bar would cost 60 cents. Tobacco is one of the most heavily taxed consumer products. Last year, federal and state taxes accounted for 33 percent of the retail price of cigarettes, and these governments reaped a record tax take of more than \$9 billion from tobacco alone.
