Alexander REALTY
PROFESSIONAL PARK - 608 W. KING STREET 739-1616
INVESTING IN AMERICA
By RUBY M. ALEXANDER
American real estate looks like a good investment—especially to foreign investors, who are pouring millions into U.S. properties these days. Most of those European syndicates are attracted not only by the land, but by our stable political system and the safe dollar.
Truth is, real estate has been a super way to watch your equity build, even if you're not seeking a haven for your francs or pounds. Home prices have been rising, sometimes slowly, sometimes spectacularly, in the past 25 years. Your home is almost certainly worth more than you paid for it.
When you sell, you want to realize all you can. To protect your equity, let a professional handle the transaction. We'll show you how we can maximize your return, despite commission, with a better sales price.
Let us help you get the best possible deal. List your house with Alexander Realty.

Prevent cataracts with sunglasses
Sitting in the sun has become a favorite pastime. Additional problems from sunlight, however, are being pointed out by experts — cataracts.
Cataracts, or the clouding of the lens of the eye, can occur from exposing one's eyes to too much ultraviolet radiation — too much direct sunlight.
Most of us wear sunglasses to protect our eyes. But just any kind won't do. Give us a "look" when you buy sunglasses. Don't buy cheap. As with medications, buy quality and give your eyes a break. They're much more sensitive than your pocketbook!
