Buckeye Awarded Contract

A small business in Kings Mountain is benefiting from defense contracts awarded by the Defense Construction Center (DCSC) of Columbus, Ohio. The Center announced today the award of a contract for \$118,353 to Buckeye Fire Equipment Co., 102 Industrial Drive, 28086, which will produce fire extinguishers for use by the U.S. military services.

With an inventory of over 413,000 items, the Center last year bought over \$966 million worth of items that ranged from lumber and wood products to plumbing accessories such as pipe, pumps, valves and fittings. Repair parts are purchased for vehicles as simple as commercial trucks and sedans and as complex as military aircraft, ships and submarines. DCSC also buys such major end items as tractors, cranes, road machinery, forklifts, and mechanized materials handling equipment. DCSC is a field installation of the Defense Logistics Agency, Washington, D.C.

Buckeye has received a contract totaling \$173,470 from the Defense Construction Supply Center (DCSC) in Columbus, Ohio. The small business will provide fire extinguishers to U.S. military units around the world.

DCSC makes a special effort to award contracts to small and minority and woman-owned businesses. Such awards have a significant economic impact on the communities where these contractors are located. DCSC is a field installation of the Defense Logistics Agency, Washington, D.C.
