By RUBY M. ALEXANDER

Just a few years ago, adjustable rate mortgages were a new phenomenon. Today they represent 36 percent of all first mortgages in existence in the U.S. Lenders met a need with a new product and both the real estate industry and buyers found its advantages.

The real estate business is constantly changing. New laws, tax rulings, and developments in the money market—not to mention new building ideas and new demands from buyers—all must be followed. It's a full-time job for real estate professionals to keep up with it all. No homeowner has the time.

You can't sell today's customer by yesterday's rules. We make it our business to keep up. It IS our business to show, negotiate, sell, get the best price for our clients. We take over all the marketing details and move the transaction to fruition. We know how—so you don't have to.

Get the help of experts. List your property with Alexander Realty.
