

Public Hearing Cancelled

A Tuesday night public hearing on the Cleveland County Mental Health Board's request to buy city property on Cansler Street...

A capacity audience, many of them present to protest the sale of the property for the group home, filled City Hall for the city council's regular meeting but did not comment.

D.S. Brenneman, area director, wrote Community Development Director Gene White that the Mental Health Group's citizen's committee is still in the process of identifying and considering properties...

Extension Of Lines Approved

from engineering to taking bids but will receive funds from Senate Bill 2 and Cleveland County to pay cost of this extension, including contractor payments and engineering.

Senate Bill 2 allocations for the city's water and sewer construction projects will total \$179,894 with city matching funds of \$179,894 and covering a two year period, to be budgeted by the city.

The projects include: West Highway 74 area where 12,800 feet of eight inch water line, 14 fire hydrants and 15,000 feet of 8 and 10-inch sanitary sewer are to be installed at total cost of \$196,550; Grover Road and Margrace Area, where 7,000 linear feet of 12 inch water lines, 3,200 linear feet of 10 inch water lines and four borings under Southern Railway tracks are to be installed with total cost of \$73,979; and Northwest Section, where approximately 2,000 linear feet of 8 inch water line and three fire hydrants are to be installed at cost of \$15,300.

In other actions, the board adopted a letter of intent to N.C. League of Municipalities for inclusion of the city in Interlocal Risk Financing Fund, a self-insurance pool for N.C. cities that will be backed by Lloyd's of London to provide general liability insurance for about one fourth to one third less than commercial rates and adopted an ordinance establishing areas of special flood hazards and regulations to give citizens a break on costly flood insurance.

The board accepted the low bid of \$20,995 for a used garbage packer from BFI of Charlotte; low bid of \$17,425.33 from Earl Tindol Ford, Gastonia, for a handicap equipped van for the aging department and recognized local Girl Scouts who had participated in Girl Scout Governmental Day Tuesday at City Hall.

DuPont To Take Applications

participate in pre-employment training which will include testing for mechanical aptitudes and other skills.

According to Joe Miller, personnel manager, employees will work in an environment dedicated to the concept of a cooperative team effort. Each employee will learn skills needed to perform a variety of tasks.

The plant will be run by a joint venture being formed by N.V. Phillips of The Netherlands and E.I. Du Pont de Nemours and Company of Wilmington, Del.

The new facility is expected to be in production and operational by end of this year.

No More Flowers Or Balloons At KM Schools

From Page 1-A Joneses', because one student will send flowers to a sweetheart and then another will come along and try to out-spend him," Davis said. "It gets quite expensive and I don't think it's teaching our students a good example."

Connie Phifer, a teacher at North School, said she did not think it was "fair" for teachers and staff members to be included in the action.

"We have to set the example for the children," board member June Lee noted.

In other action Monday, the board:

Approved asking the council...

ty commissioners for allowing Kings Mountain's share of the half-cent sales tax revenue to be used on roofing projects at North and Central schools. Davis estimate the job would cost \$130,000 to \$150,000 and that about \$84,000 could be received through the sales tax. The remaining cost would come out of capital outlay funds.

*Was told by Allen that students in the third, sixth and eighth grades who score below the 25th percentile on the CAT test and a re-test, would be required to attend summer school under the new state-supported summer

school program. Students who fall into the category and do not attend summer school will not be promoted unless they have already been retained for a year or they are classified as "exceptional." Allen said the school will run from June 16-July 25 from 8:30-11:30 a.m. Teachers will be paid their regular state salary. The eighth graders will meet at the junior high and the third and sixth graders at West. The program will be tuition-free with transportation provided. It is a separate program from the traditional tuition summer school.

*Received a report from Allen on how sixth and eighth graders scored on the writing phase of the N.C. Annual Testing Program. He said only three KM sixth graders made a perfect score and that KM students fell below the state average. "Some work needs to be done," Allen said, "but sixth grade teachers can't be held responsible for all of this. It needs to start in the elementary grades." Eighth graders fared much better, Allen said, because they had been tested as sixth graders and that the junior high has taken steps to improve their writing. "We

need to do more work in preparing students to write in an acceptable manner," Allen said.

*Allen reported to the board that the competency tests would be administered March 18-20 and for the first time sophomores will be included in the testing. He said writing has also been added to the test. In the past, students were tested in reading and math.

*Approved the employment of Louise Puckett.

*Accepted David Tarleton from Gaston County Schools and released Jennifer Smith to Cleveland County.
