Therefore, it is hereby ordained by the Board of Commissioners of the City of Kings

Mountain that: Section B: Findings Of Fact: (1) The flood hazard areas of the City of Kings Mountain are subject to periodic inundation which results in loss of life, property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely effect the public health, safety and general welfare.

(2) These flood losses are caused by the cumulative effect of obstructions in flood plains causing increases in flood heights and velocities, and by the occupancy in flood hazard areas which are inadequately elevated, flood-proofed, or otherwise protected from flood damages.

Section C. Statement Of Purpose: It is the purpose of this ordinance to promote the public 3:20,27, 4:3c health, safety, and general welfare and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

(2) Require that uses vulnerable to floods, including facilities which serve uses, be protected against flood damage at the time of initial construc-

(3) Control the alteration of natural flood plains, stream channels, and natural protective barriers which are involved in the accomodation of flood waters;

(4) Control filling, grading, dredging and other development which may increase erosion or flood damage; and

(5) prevent or regulate the construction of flood barriers which will unnaturally divert flood waters or which may increase flood hazards to other lands.

Section D. Objectives. The objectives of this ordinance are: (1) To protect human life and

(2) To minimize expenditure of public money for costly flood control projects;

(3) To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;

(4) To minimize prolonged business interruptions; (5) To minimize damage to public facilities and utilities such

as water and gas mains, electric, telephone and sewer lines, streets and bridges located in flood plains; (6) To help maintain a stable tax base by providing for the sound use and development of

flood prone areas in such a manner as to minimize future flood blight areas; and (7) To insure that potential home buyers are notified that
