SIGNS PRE-APPLICATION—Mayor John Henry Moss, above, signs a pre-application for \$6 million in federal assistance for a proposed bond program for Phase I of an expanded water system to meet future needs in Cleveland and Gaston counties and estimated to cost over 48 months \$25.8 million in a proposed 90 mile metropolitan utility district to serve more than 11,000 customers, including Kings Mountain.

KM Policeman Gary Sale Found Guilty Of Larceny

From Page 1-A

sions between February and March in which Sale allegedly pumped about \$10 worth of gasoline into his personal car without paying for it, and James Pearson, distributor for Fletcher Oil Co. who testified about operation of the self service pumps.

A seven year veteran of the Kings Mountain police force, Sale denied the charges, contending that a feud had developed between him and Oliver, Sr. because Sale had served a warrant on Oliver, Jr. for larceny of gas from his father's station. Sale had subpoenaed 25 character witnesses and among the dozen called to the stand were City Commissioners Harold Phillips, Fred Finger, Corbet Nicholson and Pete Johnson, owner of East King Gulf Station.

Judge Phillips ruled in the case after almost a full day of testimony from many witnesses and in a crowded courtroom in Shelby.

According to District Court records, judgement in the case included that Sale "be of good behaviour and not harass or abuse Jerry Oliver, Sr. or any member of his immediate family."

Letter To The Editor

Dear Editor,

All interested persons are asked to attend Tuesday night's city council meeting when questions will come up pertaining to the pool.

Many people who signed the pool petition have since questioned the matter as to why this subject was suddenly put to death.

As I heard Rev. Wayne Russ say, "we're the only town that's dry that gets plenty of water."

John Henry Moss got this water vote to pass 20 years ago and you and he should be remembered for that. I remember and was helping the Mayor when everyone thought it could not be done.

So you can see I can praise Mayor Moss for good we've done.

Now do us citizens some good by showing that all of us are human, have feelings and deserve our say.

At this time this matter could go into the hands of the Attorney General for an injunction due to the fact of the

way we have ever deprived of our rights.

Please reconsider this rescindation. You have nothing to lose and everything to gain. We ask that you rescind this obligation of \$15,000 a year.

PAT HERNDON
CHAIRMAN
LET US VOTE GROUP

I feel it's my obligation to these people to question the matter as to why this was so smoothly put into effect by just a handful of city council members and then board members.

These petitioners will soon be asked again to vote on another matter which is soon to come up. It seems it just doesn't matter anymore unless they see that someone strives to fight for something that they had no vote on, even though 697 said no.

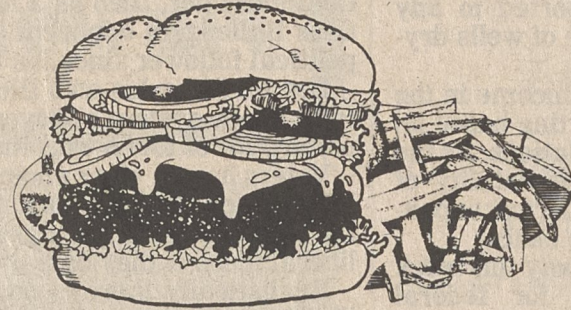

Bring this to a vote on next November or even during the upcoming liquor vote, which I hope for all of you will be a "No" vote again.

Many other things are in much needed help besides pools and liquor.

If parents could only be put in the light about the school systems, and their problems they would run to see that the school dollars were used for just that, School.
