RAGAN HARPER

Lightning facts for your safety
 Storms can be an alarming source of freight. Tornadoes in spring, hurricanes in late summer, freezes in winter, and severe thunderstorms in mid-summer.

Every season carries its own wallop, so know the warnings. With summer's thunder, flashes one of nature's scarriest bursts - lightning.

Before lightning intensifies, know what to do: Seek shelter indoors, or in a closed car; If boating, get to shore; Avoid exposed metal objects such as golf clubs, fences, and bicycles; Don't hide under tall trees, or use telephones. Play it safe and stay healthy.

Health Tip
 OF THE WEEK

CHARLES E. ZIMMERMAN

'JUNK' FOOD

A study of over 2000 teenagers in 112 high schools found that a large proportion are undernourished, despite heavy eating, because of faulty diets. The children themselves referred to "junk" they ate, instead of drinking milk and fruit juice, and eating wholesome fresh vegetables, fruits, meats and whole cereals. Proper diet makes for better health, energy, and good appearance.
