

### President Reagan On Bible Week

In recognizing November 23-30 as National Bible Week, President Ronald Reagan issued the following message:

The Bible is a fundamental part of our national heritage and a blessing for all of us. In the pages of the Bible, the history of Western civilization begins. Our laws, our sense of justice and charity, our moral standards—all these find their roots in the Bible. The personages, the events, the lessons, and even the language of the Bible permeate our literature, our visual arts, and our music. The Bible should be an important part of every person's knowledge. That great American scholar, Noah Webster, was hardly exaggerating when he wrote that: "All the miseries and evils which men suffer from vice, crime, ambition, injustice, oppression, slavery, and war, proceed from their despising or neglecting the precepts contained in the Bible."

Since 1941 the Laymen's National Bible Committee has sponsored National Bible Week each year to remind all Americans of the benefits to be gained from regular Bible reading and study. The theme for the 46th annual observance, November 23 to 30, 1986, is an invitation to knowledge and understanding: *Bring your Mind as Well as Your Heart to the Bible.* All Americans can profit from following this rule, and by observing National Bible Week with reverence and enthusiasm. Such an effort will deepen our understanding of liberty as a right bestowed by God, and of responsibility as a duty fortified by belief in Him.

God bless you.

### HEALTH QUIZ

If you are planning to become pregnant, or know someone who is, this quiz about smoking and pregnancy should prove enlightening.

1. Pregnant women who smoke are more likely than nonsmokers to deliver a baby prematurely (a) True (b) False?
2. Babies born to women who smoke during pregnancy are on average how much lighter than those born to women who do not smoke (a) three ounces (b) five ounces (c) seven ounces?
3. Pregnant women who smoke are more likely than nonsmokers to deliver a baby that has health problems (a) True (b) False?

ANSWERS: 1. True. In studies by the National Institute of Child Health and Human Development, the risk of early delivery was found to increase by at least 36 percent if the mother smoked. 2. (c) Moreover, there is little evidence that those infants always "catch up" in their early years. 3. (a) True. It has been demonstrated that smoking during pregnancy can be harmful to the health of the child before, during and after birth.

Free Brochure  
An informative brochure about pregnancy and smoking is available by writing to: NICHD, PO Box 29111, Washington, DC 20040.
