

TRAVELING EXHIBIT AT CREST HIGH—A traveling career exhibit from the School of Agriculture and Life Sciences at N.C. State University will be on the campus of Crest Senior High School Wednesday, Jan. 21 to acquaint Cleveland County students with degree options and career opportunities.

Crest To Host Exhibit

Crest High School will host a traveling career exhibit from the School of Agriculture and Life Sciences of North Carolina State University on Wed., Jan. 21.

The exhibit, which has been arranged by Guidance Counselor Colenia Jolly, will be at the school from 9 a.m. until the close of the school day.

Accompanying the exhibit will be Chuck Wooten, a 1985 NCSU graduate in

agricultural business management.

"Our purpose in bringing the exhibit to Cleveland County is to acquaint students with the 29 different degree options available to students in the School of Agriculture and Life Sciences," said Wooten.

"They can also learn about the hundreds of career opportunities that graduates can pursue in science, business, medicine, education, and

governemnt, as well as in agriculture."

Students visiting the exhibit, which is housed in a red and white travel trailer, can see a videotape, operate a computer, obtain brochures and ask Wooten questions at NCSU.

The exhibit is part of an agricultural awareness program being conducted by NCSU's Department of Agricultural Communications with the aid of a grant from RJ Nabisco.

Nominations Being Accepted

Nominations are being accepted for the 1987 Presidential Awards for Excellence in Science and Mathematics Teaching program.

Teachers can be nominated by colleagues, administrators, students or parents of students. The deadline for postmark of nominations is March 2.

The Presidential Awards program honors six teachers in each state and jurisdiction, with two of the six receiving the Presidential Award during an expense-paid trip to Washington, D.C., in November.

This award carries with it a \$5000 National Science Foundation grant, in addition to other honors and gifts.

To be eligible, a teacher must be assigned during this school year at least half-time to classroom teaching of science or mathematics in a public or private middle/junior or senior high school in North Carolina. Teachers must also have a minimum of five years teaching experience in science or mathematics.

Supported by the NSF and managed by the National Science Teachers Association, the Presidential Awards program recognizes teachers who have demonstrated classroom excellence. These teachers serve as models for the teaching profession.

Nominations must include name and complete home mailing address and be mailed by March 2.
