

Kings Mountain Hospital Celebrating National Hospital Week

"We feel good helping you feel better" is the theme for this year's National Hospital Week, May 10-16. The employees of Kings Mountain Hospital get a feeling of satisfaction from a job well done and that's why they

do their best to help the citizens of this community feel their very best. Keeping a check on your health is one way to keep feeling good. As a community service, Kings Mountain Hospital is offering free

screening tests to anyone 18 years of age and older in observance of National Hospital Week. The tests are available Tuesday through Thursday between the hours of 1 and 4 p.m. at the hospital. It is never too late - or too early - to start living healthier. Since the staff at Kings Mountain Hospital want to help you feel better they offer the following ten best ways to improve your health.

1. Quit smoking cigarettes.
2. Wear protective clothing

when exposed to harmful substances.

3. Avoid meals that are high in calories.
4. Eat a balanced diet with plenty of seasonal fruits and green vegetables.
5. Use seat belts while driving. Persuade your passengers to buckle up too.
6. Know the ingredients of prescription drugs you take and how they affect you.
7. Avoid unnecessary x-rays.
8. Avoid saturated fat and foods which contain high levels of cholesterol.
