DISTRICT 1

COMMISSIONER

TUESDAY,

NOVEMBER 3RD

- Professional Engineer
- Bachelor Of Science - Civil Engineering - N.C. State University
- Vice-President-Campco Engineering

I, Al Moretz, am a candidate for City Commissioner for District I. I am the only candidate with technical training and experience related to the selection of a city manager.

As a citizen, I am concerned about my utility bills, recreation for the children, the senior citizens program, improving the streets and drainage systems, the appearance of our neighborhoods and getting information from the city.

As a commissioner, with my engineering experience and citizen input, I would work for the other citizens to improve these situations. In order to accomplish this task, all citizens must take part in government as individuals. Candidates also should be considered on their individual qualification **AND NOT AS A GROUP.**

I offer myself as an individual with an engineering degree to the citizens of Kings Mountain. I would like to use my talents as your District I Commissioner.

Thank You
