Royal family romance depicted in TV movie

Anthony Andrews, Jane Seymour portray controversial couple

By Mary Ann Townsend Love takes on politics when the controversial romance between King Edward VIII of England and American divorcee Wallis Simpson is retold in The Woman He Loved, Sunday, April 3, on CBS.

Jane Seymour and Anthony Andrews star as the fated couple whose love for each other caused a national turmoil and his eventual abdication of the throne in 1936.

'The English see her as a conniving little witch who turned Edward's head. The Americans tend to see Edward and Wallis as a case of true love destroyed by politics and the press," said director Charles Jarrott.

"We're trying to tell the story from the American point of view for the first time," said Larry Thompson, the two-hour movie's executive producer. "Our film tells the story from Wallis' perspective. Whether it's all that sympathetic toward her, people will have to judge for themselves."

Seymour is sympathetic toward the character she plays, but she still senses a streak of manipulativeness in Wallis. "I think she genuinely found him attractive, but she also saw that there were advantages in encouraging his feelings for her," she said. "Wallis definitely wanted to be Queen. It's evident that she tried to break off with him when it looked like he was going to give up the throne. Still, after all was said and done, she stayed with him for 35 years."

Being acquainted with royalty in real life, Andrews said he was a bit uneasy about playing the part of the controversial monarch. But the conflict the character provided was too good of an opportunity to decline.

'It's not just the Queen, it's the entire family. They're all doing much more work than ever before," the British actor said. "The royal family is looked up to for a standard of behavior. They

on the beautiful and innocent Laurel Ellis. Great Performances A 6 widower allows his miserliness to

have no real political power, so they instead take on a sort of moral standard. That's the real point of this story, I think. Edward VIII disappointed an entire nation, who looked to him to be better than they were."

Sunday on CBS.

Both Seymour and Andrews agreed that Edward was so totally absorbed by Wallis because she was so vastly different from any woman he had met in his sheltered existence among royalty. She treated him like a human being rather than an object upon a pedestal, and made him feel truly important.

A touching tale surfaced when Sevmour was researching her role.

"Those who were close to them in their later years say that in private, he always called her 'your royal highness.' I think that was very sweet," she said.

Seymour had her first major film role in the James Bond adventure Live and Let Die. She will be featured in the upcoming miniseries Onassis and War and Remembrance.

Andrews, seen recently in CBS' Bluegrass, is perhaps best known for his role as Sebastian Flyte in the British series Brideshead Revisited.
