RAGAN HARPER

Hate to wear seatbelts?

A popular misconception is that seat belts can prevent you from escaping from a burning or submerged car. The opposite is true: first, less than .5% of all accidents involve car fires or water; second, a seat belt can help you remain conscious so you can exit faster.

Also consider: Slamming into a windshield while driving 30 mph carries the same force as jumping ~ headfirst ~ off a three story building. Half of all deaths and serious injuries occur at speeds under 40 mph. And most crash deaths occur near home.

We care for our community. Please buckle up!

3. Kings Mountain at East Rutherford

Well, let's see, . . . If I sell my old car, cancel my vacation, put my kids to work, pawn my jewelry and let my mother-in-law move in, I should be able to afford it.

We've got a better idea. Talk to a Home Federal Consumer loan officer before you buy. Our loan officers are experts in getting you the money you need . . . fast! And with monthly payments that

won't wreck your budget. So, when you need a loan, just call Home.
