

GROVER TOWN BOARD SWORN-Newly-elected Grover councilmen Jim Howell, Tim Rowland and Norman King take the oath of office as their wives hold the Bibles and Town Clerk Debora Philbeck, far right, administers the oath. From left are Jim Howell, Mrs. Mamie Howell, Tim Rowland, Mrs. Lynn Rowland, Norman King, Mrs. Ruth King, and Philbeck.

Grover Receives Hugo Money

The Town of Grover has received \$5193 from the state and federal governments to help pay for Hurricane Hugo cleanup but the City of Kings Mountain, which expects to receive \$450,000, hasn't received reimbursement yet.

"We have been told that our applications have been reviewed and are approved but the processing time will take a little longer," said City Manager George Wood. He said the process takes from two to six weeks once the application is filed.

Monday night Grover commissioners formally au-

thorized Mayor Bill McCarter to sign a Hugo relief acceptance check. McCarter has been working with the Federal Emergency Management Assistance offices in Charlotte which administers the funds.

Checks were delivered to many Gaston municipalities on Monday and also to neighboring Shelby which received \$100,566.

Public assistance payments from Hugo, the worst financial disaster to hit North Carolina in terms of natural disasters this century, are expected to amount to more than \$63 million.

Plan

persons without the prior approval of the Board of Directors of the company, all rights holders except the acquirer may purchase Commercial Intertech Corp. stock having a value of twice the exercise price of the rights. If commercial Intertech Corp. is acquired in the merger after the acquisition of 20 percent of the voting power of

the company, rights holders except the acquirer may purchase the acquirer's shares at a similar discount.

The rights will be represented by existing certificates for Commercial Intertech Corp. shares and the dividend distribution will be payable to shareholders of record on December 13, 1989. The right will expire on November 20, 1990. The rights distribution, described in more detail in a letter

that is being mailed to all Commercial Intertech Corp. shareholders, is not taxable to shareholders.

Paul J. Powers, Chairman, President and Chief executive Officer said "The rights plan will help ensure that all Commercial shareholders realize the long-term value of their investment in the company."

Grover

From Page 1-A

A 3,250 square foot addition to the present Town Hall is expected to be one of the first items of consideration on the new board's agenda. Since the board recently leased the police and fire departments to firemen, a new police station is expected to be included in the proposed addition which would also include a community room for Senior Citizens and other groups plus bathrooms, a kitchen and storage facilities. McCarter said architect's drawings have been completed and a cost estimate will soon be made available for board study.

Other projects for the new year will include recapping of streets, reseeding and fertilizing of the ball fields and construction of back-

stops and benches for Brice Harry Memorial Park.

"We will be ready to extend water and sewer lines and will need to talk about annexation some more and one more well is badly needed," said McCarter. Grover buys one-third of its water from Kings Mountain.

McCarter told the new members that board members earn \$200 a month, emphasizing the word "earn" and stressed the importance of setting the right priorities.

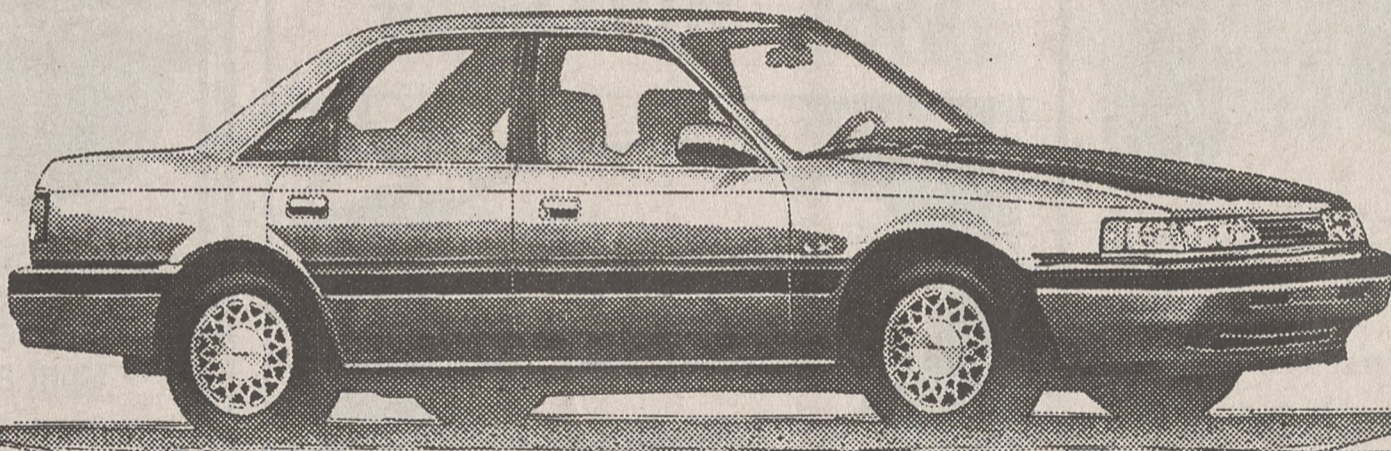

Both newcomers King and Rowland pledged their cooperation and King called for more citizen input. "I'm looking forward to this administration doing a lot of good things for this town."

In other actions, the new administration reappointed Debora Philbeck as clerk, McCarter as finance officer and office manager, Commissioner Howell as maintenance supervisor, Commissioner Ronald Queen as Mayor Pro Tem and Glenn Rountree as cemetery

superintendent. Commissioner Sandra Spangler was appointed the board's representative on Grover Fire department and McCarter was appointed its representative to Isothermal Planning & Development Commission. The board delayed the appointment of a town attorney and advertised for the position of police officer.
