

Summer Enrichment Classes Set

Kings Mountain District School is still taking applications for Summer Enrichment classes at Bethware School for K-6 students. Two sessions are planned; First session-June 18-29; second session-July 9-20. The hours are 8:30-10:00 and 10:30-12 noon. Snacks will be available at break. Students may register for one or two classes per session.

Register early to ensure your child's space in programs. Only 15 students will be permitted to enroll per class. The classes are small to insure individualized instruction. Transportation will not be provided for this program. The following courses will be offered if a minimum of 10 students are enrolled in each class: computer awareness, science/geog-

raphy, math enrichment, reading enrichment, art, ceramic craft, conversational Spanish and conversational French. The cost is \$35 for one class and \$60 for two. For an application call 739-2296 or come by the School Community Relations office, 500 West Parker Street.

Girls Club Planning Summer Program

Cleveland County Girls Club summer program will operate for 10 weeks June 11 through Aug. 17, Monday through Friday, 9 a.m. until 5 p.m.

The program is open to all rising first through 12th grade girls from throughout the county. Registration is open now. A parent or guardian must come

to the Girls Club at 821 West Warren Street, Shelby, to register each girl and pay the \$5 annual membership fee. For further information, call 482-8431.

FRIENDS OF LIBRARY PLAN BOOK SALE-Mrs. Bob Baker, left, J. C. Bridges and his wife, Edie, sort some of the books which will be available at bargain prices to readers on May 25 and May 26 from 10 a.m. until 4 p.m. at Weir Auditorium of Mauney Memorial Library. The selling price for good paperbacks is a quarter. Hard-back books can be bought for 50 cents and \$1 will get the reader a specialty item. All proceeds will go to the library for equipment and new books. Used books can be donated by the public. If you have books to donate, call the Library or take the books to the Library on Piedmont Avenue. Friends of the Library, of which Dr. Martin Stallings is president, is promoting the sale.

Book A Trip To Africa

Have you ever wanted to visit Africa? Have you ever dreamed of watching a herd of elephants in their natural habitat, or a herd of giraffes galloping across the grass lands? Do African children study the same things in school as American children, and what games do they play?

This summer you can "Book a Trip to Africa" at Mauney Memorial Library, and read your way through this mysterious and fascinating continent on the other side of the world.

The kick off program and registration will be held Tuesday, June 12, at 10:30 a.m. Students from three years of age through junior high school and register for the Summer Reading Club at that time. Each student will receive a log in which he will keep a record of the authors, titles and number of pages of the books he reads during the

summer. Pre-school children will receive credit for books read to them, and the parent will be responsible for keeping his log. Guest speaker will be Moses Neuman, from Nigeria, Africa. Neuman will talk about his country and share some of its folklore, customs and ideology. He will display some interesting art and carvings, as well as model the traditional costume of Nigeria. Neuman feels that by

learning about different countries, we can foster a better understanding among the peoples of the world.

The Summer Reading Club will continue for eight weeks with graded classes, including pre-schoolers on Wednesday at 10:30 a.m., teens on Wednesday afternoons at 3 p.m., primaries on Thursdays at 10:30 a.m., and juniors on Thursday at 3 p.m. Prizes will be distributed throughout the summer as incentives for reading.

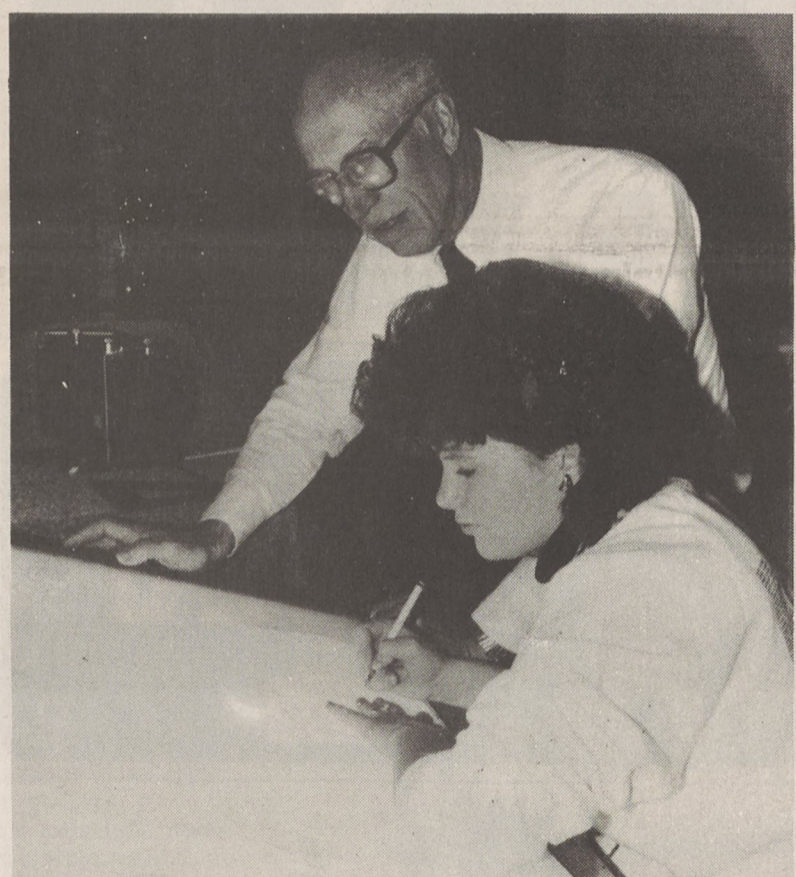

Many special activities have been planned for the summer. One of the most exciting activities will be the pen-pal exchange. We will have the names and addresses of some children in Africa, and student in the Summer Reading Club will have an opportunity to write someone in his own age in Africa and learn first hand about a foreign culture and way of life.

For the teens, we also have a lot of exciting things planned. In addition to the classes on Wednesday afternoons, junior high students may also act as volunteers to assist in the classes of younger children, and perform other duties for the Summer Reading Club. A staff of volunteers is already busy with preparing materials for the summer and setting up displays.

Puppetry will play an important part in the summer activities. They will be used in all classes, but the junior high class will make a set of animal puppets and put on a play at the party which will end the summer program. They will also perform at other locations, such as the Convalescent Center.

The safari at the end of the summer will be held August 7 at 3 p.m. At that time certificates and prizes will be awarded. Many prizes have been contributed by the businesses and industries of Kings Mountain, and include such items as savings bonds, free hair cuts, free dance and gymnastics lessons, stuffed animals, hamburgers and cokes, and much more.

A busy summer has been planned. Don't forget to "Book a Trip to Africa."

Melody Ramsey is reproducing an architectural drawing on the light reproduction table while instructor, Bill Wellmon, observes.

Voc Ed Works With Drafting

Drafting at Kings Mountain High School is a process in which all the information needed to create a product or structure is drawn on paper or a computer screen. The essential details for building or manufacturing are communicated in pictures.

Why use drafting? Because it is cheaper to make mistakes on paper or a computer screen than to cut and fit wood or metal. As industries continue to grow and become more cost conscious, the demand for drafting technicians will also increase.

The Technical Drafting Program at Kings Mountain High School can prepare a student for a position as a drafting technician or as a base for further training as an architect. Engineers also have to gain knowledge in drafting and design.

During the first year of drafting at KMHS, the students will gain a knowledge of basic drafting and will also get a brief preview of each option taught: mechanical and architectural training.

In mechanical drafting the students learn skills required for the related fields of mechanical drafting. Areas such as structural, machinery, casting, forging, and extrusion drawings will be studied. The student studies a wide variety of topics such as process piping, dimensioning and tolerancing, product design, computer graphics, manufacturing processes, aerospace, and related

mechanical design factors involving computer assisted drafting.

Contractors, engineers, architects and building material manufacturers all have one thing in common—a need for architectural drafting. Instruction is given in various types of architectural working drawing, structural drawings, electrical, plumbing, air conditioning and process piping drawings and computer drafting.

A basic understanding of building construction, surveying and electricity is obtained in the course.

Through the drafting program employment can be gained in machine shops, manufacturing plants, contractors, architects or with an engineering firm.

The students are invited to belong to a professional student organization. The Vocational Industrial Clubs of America is a national youth organization. The student gains self confidence by working with other students, increases knowledge and skills needed for employment and leadership abilities. Local, regional and state competition is held to give the student a chance to prove his knowledge. The winners from state advance to national competition. Students participating in the various skills competition stand a better chance to gain employment. The class also participates in local and community activities.

At McCutcheon Chrysler-Plymouth-Dodge

You Are Number One!

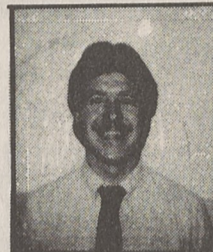

and everyone on our staff knows it.

BODY SHOP

John Schronce
"We repair any make or model car, truck or van" All repairs guaranteed for 12 months. PLUS WE WRITE FREE ESTIMATES

HONDA

Maintain the Quality
with Genuine Honda Parts and Service

Oil and Filter Special

This service offer includes:
Drain and replace engine oil. Install Genuine Honda oil filter. Check fluid levels. Inspect wipers and blades. Inspect tires and check air pressure
Price \$13.95

Cooling System Special

This service offer includes:
Inspect coolant condition. Test coolant protection level. Inspect radiator, cap and hoses. Check thermostat/temperature gauge operation. Check operation of radiator and A/C condenser fans. Pressure-test system. Check waterpump for noise, loose pulley, and condition of belt. Replace coolant (extra cost, if needed).
Price \$9.00

Air Conditioning System Checkup

This service offer includes:
Check outlet temperature. Check cooling fan and compressor operation. Check system for leaks. Inspect all belts and hoses. Check/clean condenser fins. Repair or recharge of system (extra cost, if needed)
Price \$9.00

Tire Balance and Rotation Special

This service offer includes:
Rotate all four tires. Check/correct tire pressure. Inspect tires for irregular wear and damage. Balance all four wheels.
Price \$18.00
