Our CD changer puts you in control.

INTRODUCING PIONEER'S CAR COMPACT DISC SYSTEMS WITH REMOVABLE CONTROLS.

Whoever said you can't take it with you obviously never owned a Pioneer car CD System, the most versatile tuner/multi-CD changer system ever designed for a car.

The tuner/CD controller snaps instantly in or out of the dash for anti-theft protection. Or it can be mounted on a cord that floats inside your car. Leave your car and you can take the pocket-sized controller with you.

And when you're ready for the road, slip six discs into your trunk mounted changer, using the same 6-disc magazine as Pioneer's home CD changers and enjoy conveniences, like track search, track scan, random play and up to 512 track programmability. And of course, the incomparable sound of Supertuner III.

Pioneer's car CD Systems. When it comes to incredible digital sound, they're out of sight.
