IDEAS FOR ARRANGING LOVE SEATS

Many love seats that were manufactured years ago were uncomfortable - but in recent years, love seats have real comfort and afford wonderful decorating possibilities, too.

And, today there are so many designs and styles of love seats that can bring both beautiful decor and practical advantages to your rooms.

Here are just some of the attractive ways love seats can be used in your living room.

You might create a grouping by having two love seats facing each other before a fireside, picture window, etc.

You might place one or two love seats in a corner with a lamp table either between or beside.

Or, you can place a love seat at right angles to your sofa, or to another chair for a nice living room setting.

Love seats can also be effectively used in bedrooms, family rooms, playrooms and other rooms, giving you a good decorating touch and answering a seating need.

To see a selection of love seats and other furnishings - and for all kinds of decorating ideas for your home - stop in. There's no obligation, and we look forward to seeing you.
