Your chances of surviving a heart attack just got better.

Over a million and a half Americans had heart attacks last year. Tragically, a third of them didn't survive.

But now, heart attack victims in this area have a good chance to beat those odds. That's because our hospital has joined the Carolinas Heart Emergency Network.

This network of hospitals throughout the state was formed to provide heart attack victims with the most advanced

cardiac care available today.

Immediate response. Fast diagnosis. Treatment with new clot-dissolving drugs. They are all available at our hospital. And they all mean your chances of surviving a heart attack just got better.

For more information on the Carolinas Heart Emergency Network, just call us. KINGS MOUNTAIN HOSPITAL 739-3601
